=Arrangement=

This book I is intended as a progressive textbook, by which anyone who is totally unfamiliar with the Enumeration may, in a practical way, learn its sciences sufficiently to grasp the many beautiful laws of the Enumeration and apply them.

This will help to rebuild your life and give you almost a new world in which to live.

To assist you in gaining this knowledge more easily, this work has been arranged in three major volumes, called Book I, Book II and Book III.

Book I, is designed to introduce you to the subject matter in the Enumeration, in its more simple forms and in its applications.

Book II, is designed to enable you to analyze others and to help them, thereby increasing your own knowledge and ability to order your life, for "he who teaches is doubly taught."

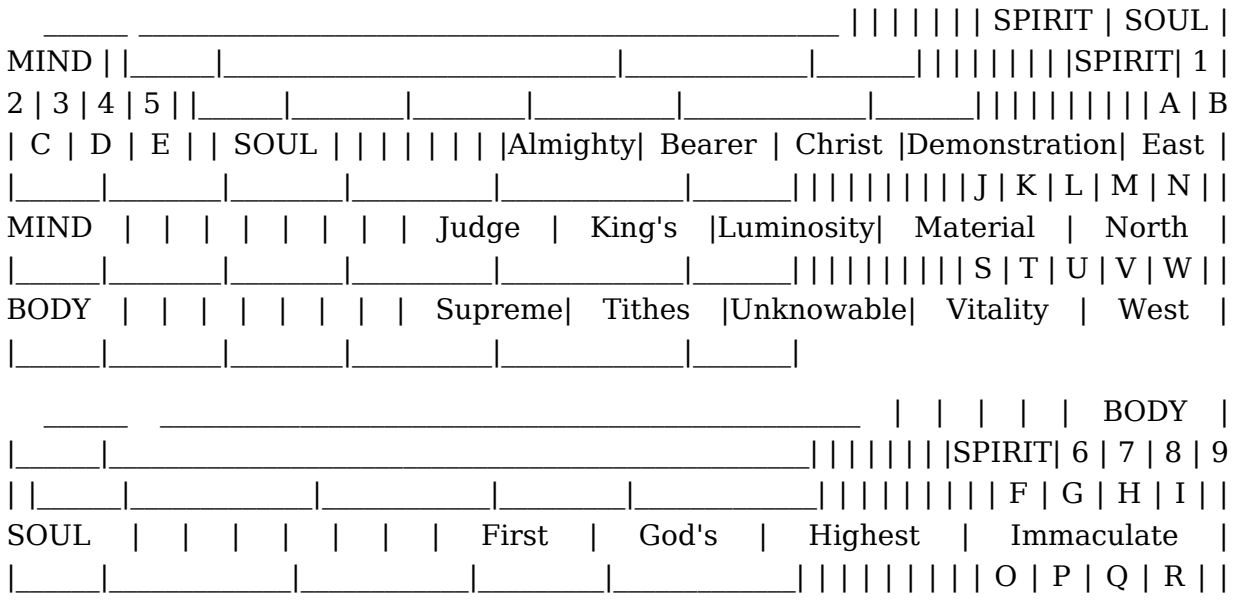

Book III, enables you, as a teacher or minister of the Enumeration, to know and apply some of the deeper phases of group psychology, and to answer some of the questions of the more educated minds, as to "the hope that is in you."

In the front of this Book I will be found a list of the General Contents of Book I. At the back of this Book will be found a very complete Topical index of Book I, by which special lessons may be made up and by which you may make very ready reference to the teachings of the Enumeration on any subject. These indexes, we feel, need no explanation to the average person sufficiently progressive to have come thus far in the study of the Enumeration.

=a, b, c, d, etc.,= refers to the paragraphs so marked throughout this text book and these letters are used to aid you when referring to the Index. They are for reference use only, and do not refer to the subject matter of the paragraphs.

=--a--= By writing the letters of the Alphabet in order beside the numbers from 1 to 9 as shown in this Alphabetical Table of Enumeration, on our left, we find the value of each letter. Thus A is the first letter of the alphabet, and has the value of 1. J is the tenth letter. 1 and 0 is 1. Therefore the value of J is 1. S is the nineteenth letter. 1 and 9 is 10. 1 and 0 is 1. Thus the value of S is 1. In like manner the value of each letter will prove to be that of the figure which stands beside it in this table.

=--b--= The second or Numerological Table of the Enumeration No. 2 on page VIII shows the value of all the letters in the English alphabet, coupled with the word expressing the inner meaning of each letter. Enumerators in other tongues are invited to make and interpret their own Tables on Enumeration according to their language.

Either the Alphabetical or the Numerological Table of Enumeration are used to find the values of the letters in working out the Personality Number of a Name, or the value of a word, in the English Tongue. The meanings of the various numbers and letters are explained as we go further into the Manual of the Enumeration.

=--c--= The third or Astrological Table of the Enumeration marked No. 3 explains the values and places of the planets and the signs of the Zodiac, according to the nine figures, or Numerology. This Astrological Table of Enumeration is used to show the place of the life and occupation of any person, for comparison with the other facts found in an analysis of the person thru the Enumeration.

Table No. 1 ENUMERATION

=Definition 1.= The Enumeration is the collection of sciences of human analysis by which we analyze the purposes and direction of the life of the Soul on this earth plane.

=Definition 2.= The principal sciences of the Enumeration are Numerology, Astrology, Graphology, Psychology and Cosmology.

=Definition 3.= Numerology gives an indication of about twenty-five per cent of the influences in life; Astrology indicates about fifteen per cent of those influences; Graphology indicates about fifteen per cent. The rest of the influences of life may then be calculated by the study of Psychology, Cosmology, heredity, environment, education, etc.

=Definition 4.= In the study of Numerology we find there are seven principal numbers that indicate what influences prevail in your life. In the order of their importance to you these are: THE SOUL PATH NUMBER, THE PERSONALITY NUMBER, THE THREE PREDOMINANT NAME NUMBERS, THE DESTINY NUMBER, and the PUBLIC APPEARANCE NUMBER.

=SOUL PATH NUMBER=

=Definition 5.= We find the SOUL PATH NUMBER by adding together all the figures found in a birthdate. For example: The birthdate August 15th, 1906, would first be written 8 15 1906. Then we would add all these figures together, 8 and 1 and 5 and 1 and 9 and 0 and 6, which would make a total of 30. Then we add the 3 and 0, making 3. Three is therefore the SOUL PATH NUMBER of the birthdate, August 15, 1906.

=Definition 6.= The SOUL PATH NUMBER shows us what we came to this earth plane to do.

=PERSONALITY NUMBER=

=Definition 7.= We find the PERSONALITY NUMBER by adding together the values of all the letters found in a name as naturally written. For example:

The name R. J. WILCOX has the following values of its 9 1 593366

letters (see page 1.)

Adding the values of these letters together we get 42. 4 and 2 make 6. 6 is therefore the PERSONALITY NUMBER of the name R. J. WILCOX.

If Mrs. R. J. WILCOX uses her husband's initials 491 9 1 593366

in her natural signature, then the figures would be used, including the MRS. The adding of these figures gives us the total of 56. 5 and 6 make 11. 1 and 1 make 2. 2 is therefore the PERSONALITY NUMBER of MRS. R. J. WILCOX.

But should Mrs. Wilcox sign her name naturally and

usually as MRS. ELLA WILCOX, we would work out 5331 593366

only HER name figures, without MRS. Adding these together gives us a total of 44. 4 and 4 make 8. 8 is therefore the PERSONALITY NUMBER of Mrs. Ella Wilcox.

=Definition 8.= The PERSONALITY NUMBER shows us how we are best adapted to do what we came here to do.

=THREE PREDOMINANT NAME NUMBERS=

=Definition 9.= We find the THREE PREDOMINANT NAME NUMBERS by selecting the three highest numbers repeated in a name or group of words, and their sum, as naturally written. For example: The name

R. J. WILCOX having the following values in its letters, 9 1 593366, making 42, which makes 6; + +""@@ @

We find the highest number that is repeated is 9 (marked +). The second highest number that is repeated is 6 (marked @); while the third highest number that is repeated is 3 (marked "). 9, 6 and 3, in their order, are therefore the THREE PREDOMINANT NAME NUMBERS of the name R. J. WILCOX.

[Sidenote: DEFINITIONS]

=Definition 10.= In case there are NOT 3 numbers repeated in a name or group of words, we take the highest unrepeated numbers to finish out the full set of THREE PREDOMINANT NAME NUMBERS. For

example: Taking the name F. O. FOX, we find the 6 6 666

values of the letters in this name to be 6 6 666, making 30. 3 and 0 make 3. Taking the highest number repented, we get 6. The second highest number repeated is 3. There is no third number, so we must repeat the 6, as being the highest number. Thus 6, 6 and 3 are the THREE PREDOMINANT NAME NUMBERS in the name F. O. FOX.

=Definition 11.= The THREE PREDOMINANT NAME NUMBERS show us what we will attract to ourselves while we are doing what we came here to do.

=DESTINY NUMBER=

=Definition 12.= We find the DESTINY NUMBER by adding together the SOUL PATH NUMBER, THE PERSONALITY NUMBER, THE THREE PREDOMINANT NAME NUMBERS. For example: R. J. WILCOX, born August 15th, 1906, find the DESTINY NUMBER. We found the SOUL PATH NUMBER to be 3, the PERSONALITY NUMBER to be 6 and the THREE PREDOMINANT NAME NUMBERS to be 9, 6 and 3. Now adding all these, 3 and 6 and 9 and 6 and 3 we get the sum 27. 2 and 7 are 9. 9 is therefore the DESTINY NUMBER of R. J. WILCOX born August 15th, 1906.

=Definition 13.= The DESTINY NUMBER shows us what the great objective of the Soul was in coming to this incarnation.

=THE PUBLIC APPEARANCE NUMBER=

=Definition 14.= We find the PUBLIC APPEARANCE NUMBER by adding the values of all the initials together, in a name as naturally written. For example: R. J. WILCOX, we take the values of the initials only, 9 1 5. Adding these we get a total of 15. 1 and 5 make 6. 6 is therefore the PUBLIC APPEARANCE NUMBER of R. J. WILCOX.

In the name MRS. R. J. WILCOX we would take 4 9 1 5

the initials of the MRS., also; (see page 2) 4 9 1 5, making 19. 1 and 9 make 10. 1 and 0 make 1. 1 is therefore the PUBLIC APPEARANCE NUMBER of MRS. R. J. WILCOX.

But if Mrs. Wilcox should sign her name MRS. ELLA WILCOX, then we would use her initials as they appeared in her name, 5 and 5 which would make 10. 1 and 0 make 1, the same as before in this case. 1 is therefore the PUBLIC APPEARANCE NUMBER of MRS. ELLA WILCOX.

=Definition 15.= The PUBLIC APPEARANCE NUMBER shows us in what way we can best appear before our public in doing the thing we came to this earth plane to do.

=ASTROLOGY=

=Principal Influences=

=Definition 16.= In Astrology there are four principal influences affecting your life. Remember that these are INFLUENCES not fates.

In the order of their importance these influences are, THE SUN SIGN, shown by the date of your birth; the PRINCIPAL PLANET, called the Ruling Planet of the SUN SIGN; your PRESENT HOUSE, determined by the number of your present year, based on your age next birthday; and the PLANETARY ASPECTS, determined by the relationships of all the Planets to each other. For all practical purposes a Raphael's Ephemeris for the given year of your birth, will show you with sufficient accuracy, your SUN SIGN, your PRINCIPAL PLANET and its position, and the major PLANETARY ASPECTS.

=Definition 17.= The SUN SIGN shows us what lines of occupation we may follow to advantage; what our chief characteristics are likely to be; with what other SUN SIGN we could best mate or become partners and what major likes and dislikes we may have.

=PRINCIPAL PLANET=

=Definition 18.= The PRINCIPAL PLANET adds to a knowledge of our characteristics and shows more fully the nature of our mind and its reactions.

=Definition 19.= The PRINCIPAL PLANET may sometimes be offset in its influence by another planet having a better set of aspects or in a more influential position in our horoscope.

=THE TWELVE HOUSES OR CYCLES=

=Definition 21.= Each year, at your birthday you come into a different HOUSE or cycle, which lasts till the next birthday. Each of these HOUSES or cycles has a definite influence on your life for that year, which will alter slightly the general influence of the previous influences mentioned, such as the various numbers (see pages 3 to 6, Definitions 1 to 15) and each influence modifies those in the preceding positions in your life.

=THE ASPECTS OF PLANETS=

=Definition 23.--a--=Conjunction or Conjunct [Symbol: Conjunct], is seen when two planets are within three degrees of each other's position in the same sign. Conjunct [Symbol: Conjunct] is considered a good aspect.

=--b--=A planet is in OPPOSITION [Symbol: Opposition] to another, when they are half way around the Zodiac from each other. This would be six signs or 180 degrees of the circle of the Zodiac. OPPOSITION [Symbol: Opposition] is considered an adverse or bad aspect.

=--c--=A planet is SQUARE [Symbol: Square] to another when they are one-fourth of the way around the Zodiac from each other, or 90 degrees of the circle, because that is the arc that forms a square. This would be three signs of the Zodiac apart or 90 degrees. The SQUARE [Symbol: Square] is considered an adverse or bad aspect.

=--d--=A planet is TRINE [Symbol: triangle] to another when they are one-third of the way around the Zodiac from each other, or 120 degrees apart. This would be four signs of the Zodiac. The TRINE [Symbol: Triangle] is considered a good aspect.

[Sidenote: ASPECTS OF PLANETS]

=--e--=A planet is SEXTILE [Symbol: Star] to another when they are one-sixth of the way around the Zodiac from each other, or 60 degrees apart. This would be two signs of the Zodiac apart. The SEXTILE [Symbol: Star] is considered a good aspect.

=--f--=A planet is SEMI-SEXTILE [Symbol: half-Star] to another when they are one-twelfth of the way around the Zodiac from each other, or 30 degrees apart. This would be in the next sign. The SEMI-SEXTILE [Symbol: half-Star] is considered a good aspect.

=--g--=These are the major aspects. There are finer degrees, but they have little or no perceptible influence.

=Definition 24.=

=--h--=To be in aspect a planet must be within three of the same number of degrees in the sign, as is the one to which it is aspected. For example: Venus [Symbol: Venus] 14 degrees in Taurus [Symbol: Taurus], would be SEXTILE [Symbol: Star] to Saturn [Symbol: Saturn], if Saturn [Symbol: Saturn] was either in Pisces [Symbol: Pisces], from the 11th to the 17th degree, inclusive; or if Saturn [Symbol: Saturn] was in Cancer [Symbol: Cancer], the 11th to the 17th degrees, inclusive. So with other numbers of degree of the places of the planets when within 3 degrees of the same positions in aspected signs. The following table may give you a little more definite idea as to the positions of the planets in ASPECTS to each other.

=--i--=In the Table of Aspects, page 10, we see Saturn [Symbol: Saturn] in OPPOSITION [Symbol: Opposition] to Mars [Symbol: Mars], Saturn [Symbol: Saturn] is SQUARE [Symbol: Square] to Mercury [Symbol: Mercury]; Saturn [Symbol: Saturn] is TRINE [Symbol: Triangle] to Jupiter [Symbol: Jupiter]; Saturn [Symbol: Saturn] is SEXTILE [Symbol: Star] to Venus [Symbol: Venus]; Saturn [Symbol: Saturn] is SEMI-SEXTILE [Symbol: half-Star] to Uranus [Symbol: Uranus]. Thus are shown the principal aspects of the planets, although it would be most unusual for any one planet

to have so many aspects with other planets.

Showing what part of the body is represented by each sign of the Zodiac. On page 7, Table No. 4, will be found the dates in which each of these signs of the Zodiac is effective.

This Chart also indicates by the positions of the signs on the body, what part of the body will be likely to be weakest in a person born under that sign of the Zodiac. This, however, is an INFLUENCE, not a fate, hence may be overcome.

=The Chart of the Lumanus=

=--a--="The Window or Light of the Soul of Man" given to earth for the guidance of man in preparation for the Aquarian age, now dawning. The whole chart of the Lumanus, seen on the left of this page, represents the finger of God pointing upward to man's higher Self, the God within man.

=--b--=This Enumeration is for the bringing forth into physical expression, phases of the Great Truth, wherever found. In this special instance, much of this Truth will be sought in what is known as the authorized or King James version of the Holy Bible.

=--bb--=We will use the modern rendering of the Table of Enumeration, adapted to the English language and corresponding to the places of the letters of the alphabet in that tongue.

[Illustration: 1] =Title=: FATHER-MOTHER GOD. These words have a value in the Table of the Enumeration No. 1 of 82. 8 and 2 are 10. 1 and 0 are 1, meaning the 1 Space in the Chart of the Lumanus, which is symbolical of the Father-Mother God. The color for the God Luma, or 1 Space, is Flame color. This is a flame of light to light our pathway, or it may be a destructive Force, according to its application. "Our God

is a Consuming Fire." (Heb. 12:29.)

[Illustration: CHART OF THE LUMANUS]

=--d--=The Father-Mother God (space 1, Chart of the Lumanus, on the left of this page), being the original One in Triune expression, is the ONE Source from which all things flow. He is the emotionless center of all =emotion;= the motionless center of all =motion;= the powerless center of all =power.= We express His personality in the male gender as showing the power or positive side of His nature, but the Father-Mother God INCLUDES all male and female creation in Himself. He is known to man by various names, such as, Creator, Father, Allah, God and many others; in all cases the same Spirit Being, above all, and through all, and in you all. (Eph. 4:4 to 6.) The words Father-Mother God total to the number 1.

The letters valued at 1, in the Table of Enumeration No. 1, are A, J and S, meaning ALMIGHTY JUDGE SUPREME.

=Personally=

=--e--=A conspicuous 1 in your name or birthdate may be a Soul Path Number, Personality Number, Predominant Name Number, Destiny Number, Public Appearance Number, Initials or repeated numbers. This 1 then means that you have a tendency to leadership, organization, force, honesty, self-defense and strength. Faults that you should watch for and correct are: dominance, selfishness and heartlessness.

=--f--=The planet of the 1 is the Sun [Symbol: Sun]. The sign of the 1 is Aries [Symbol: Aries] and Capricorn [Symbol: Capricorn], 10th sign of the Zodiac. 1 + 0 = 1. (See Table of the Enumeration No. 3.) If your name has in it an A, it increases your Soul qualities; if it has a J, it increases your Mind qualities; if it has an S, it increases your Body qualities. These three letters being under the 1, signify your spiritual understanding. (See Alphabetical Table of Enumeration No. 1.)

=POSITIONS OF THE NUMBER 1=

The effects of the five principal positions of the number 1 in life are as follows:

=--g--1 as a Soul Path Number= (see page 3) shows that this Soul Path will bring out a distinct and rather self-centered life, especially adapted to be the head of a large business, good executive, somewhat musical and artistic. You are a strong fighter for your rights, resent interference, look out for number one at all times, but are honest and frank in that seeking. You should choose a path of original or creative effort of a public type.

=--h--1 as a Personality Number= (see page 4) will tend to make you a natural leader and cause others to seek to put responsibility on you. Do not shirk these responsibilities. You should show executive and inventive ability and, while not thrusting yourself forward, always be READY TO TAKE THE LEAD. It is for you. People will soon learn to lean on your opinion, if you express your ideas only after due thought in your own way.

=--j--1 as a Predominant Name Number= (see page 4) would tend to attract around you people who are also leaders but in a lesser degree. You must ALWAYS find something for these people to do, for the prompt taking charge of them in the line you are handling and setting them to work, convinces them that their coming to you was justified, that you =are= an authority. If a leader really greater than yourself is attracted to you through your number 1 effect, you will know it, and must then ABSORB all you can as fast as possible, going onward to your own form of leadership. With 1 predominant, you should really set up your OWN institution or establishment, however humble to start with.

[Sidenote: FIRST PRINCIPLE OF CREATION]

=--k--1 as a Destiny Number= (see page 5) shows a definite form of public success in following out the career, and nearly always tends to bring you out before the public in an exhibitive way, such as a public speaker, singer, lecturer, teacher, etc.

=--l--1 as a Public Appearance Number= (see page 5) this shows that you will best come before your people as the leader or chief of your talent. No matter what the obstruction seems to be, you should keep striving till you do arrive that way. You are fitted to be just that and should accept nothing less. This may not be so much as a public speaker, but more as the directing head, such as the leader of an orchestra or the manager of a theatrical troupe.

=--m--Warning--=The easiest fault of the number 1 in any of the above places is to enlarge conceit, develop egotism, and generally make you much too selfish. Be especially careful to see that all your acts are a real benefit to the other person. You, especially, in such case, need to "love thy neighbor as thyself." (Matt. 22:39; James 2:8.) But remember also that you should be compensated for the good you do in order to really help others.

=THE FIRST PRINCIPLE OF CREATION=

=--mm--=Everything in creation exists by reason of the Seven Principles of Creation. All men or women who become successful must use these Seven Principles in their order. The use of them can be readily traced in the life and works of any great or successful man or woman.

The First Principle of Creation is FORCE.

FORCE, when rightly exerted, always leads to POWER.

=--n--=FORCE always produces your POWER, in health, mind, money or your perception of Soul and its curve, in accordance with the way you apply the FORCE.

In the First Chapter of Genesis we are told that on the First Day God CREATED, used FORCE. Creation has required FORCE ever since, both in the conception of the idea, which forced us out of former habits to the new thing, and in bringing forth the idea at the birth, as it were.

=--nn--=In this study the Enumerator learns that he is conceived in the Second House, under the Taurus [Symbol: Taurus] influence and BORN into the FIRST House

under the Aries [Symbol: Aries] influence. Now Taurus [Symbol: Taurus] represents the Bull, which is the representation of the First Principle of Creation, called FORCE. The ancients taught that Taurus [Symbol: Taurus], the Bull, represented the faculties of reproduction and fruitfulness.

Taurus [Symbol: Taurus], the Bull, and Aries [Symbol: Aries], the Ram, are considered the natural representatives of FORCE and POWER.

=--p--=Always remember that no figure is a fate, they only indicate Cosmic tendencies.

[Sidenote: ARIES [Symbol: Aries] SUB-LUMA]

=Sign No. 1=

=--q--=The Aries [Symbol: Aries] Sub-Luma influences those born from March 20th to April 19th inclusive in all years. The best occupations for this Sub-Luma would be along the lines of the Military, certain classes of Literature, Art and Lecturing; teaching of Special Subjects; Politics; large plans and management of governmental affairs; Surgery; Ironworkers; Butchers and makers and dealers in Iron, Steel and also the Graphic Arts that use metals as vehicles of expression, such as Engravers, Printers, Stone-masons and Marble-cutters. Trade, Commerce, Chemistry and Travel are also indicated as available avenues of congenial activity. You deal best with Dentists, Assayers and Mechanics.

=Marriage=

=--r--=The person expressing in the Aries [Symbol: Aries] Sub-Luma should mate, for happiness and mutual benefit, with one expressing in the Leo [Symbol: Leo], Sagittarius [Symbol: Sagittarius], Scorpio [Symbol: Scorpio], Gemini [Symbol: Gemini], Aquarius [Symbol: Aquarius], or Libra [Symbol: Libra] Sub-Lumas.

=Astral classification=

Principal planet MARS [Symbol: Mars].

=--s--=Mars [Symbol: Mars] is the planet of fire, energy and force. It gives you a disposition that is ardent, active, positive, impulsive and impetuous. You are a lover of freedom and independence, and cannot endure restraint, confinement and delay. You are generous and frank, an admirer of openness, bravery and courage, both physical and moral. You have much self-confidence, and are usually able to hold your own easily, being prompt in word and action. You need to be aware of being too rash and headstrong, for you are rather inclined to be aggressive and self-willed; and you are likely to bring many troubles upon yourself through this. You have a good deal of pride, which is easily wounded, and you do not find it easy to remain cool and self-restrained under provocation. You are an active and energetic worker and can accomplish much in a short time, and you have it in you to become very practical and capable in the world, if you exercise a little self-discipline.

=--t--=Mars [Symbol: Mars] is the planet of fire, energy, impulse and action. Its position in a sign indicates the channel through which these qualities will flow. Mars [Symbol: Mars] is the principal planet for Aries [Symbol: Aries], Mar. 20 to April 19,

and for Scorpio [Symbol: Scorpio], Oct. 23 to Nov. 21.

PERSONAL CLASSIFICATION

Preferable Jewel Diamond Colors best to use and wear White and Red Most Advantageous Day Tuesday Biblical Belongs to Tribe of Benjamin in Israel Bible References Gen. 49:27; Deut. 33:12

=--u--=Aries [Symbol: Aries] is the first sign of the Zodiac, the first Sub-Luma on the Chart of the Lumanus, a fiery, cardinal and leading sign. You want to see the world and all that lies therein. No description or travelogues will satisfy you. You are faithful, just and kind; an originator to some extent; a good and practical architect; if you finally take up that work. Your buildings would not tumble down, and they would demonstrate the finer features of art. You are interested in psychics, magic--all curious and hidden lore. At the same time these pursuits do not interfere with your daily life. In fact, your friends may not even be aware that these subjects have an interest for you. In temperament, you are inclined to materialism and are not religious in any orthodox way. You are strongly intuitive, impressionable, rather emotional. Learn to become even in your temper, and be careful how you bestow your love.

=--v--=You are a good planner, and generally forsee the results of any action, but you are not quite competent to carry out your own ideas alone. You are more or less enthusiastic, impulsive, headstrong, self-willed and likely to go to extremes. So when the individual character is much stronger than the personal, it inclines toward righteous indignation, hasty speech and lack of discretion when thrown into contact with others. You possess a great amount of force and energy and a full, rich and generous nature; plenty of vitality and enthusiasm, and also much hope and activity. You are never lacking in spirit and have plenty of vim and confidence in yourself and will never be short of what the world calls pluck. You are, at times, somewhat inclined to assert yourself needlessly, so that you must avoid giving way to impulses, and doing things rashly or jumping at conclusions so quickly.

[Sidenote: ARIES [Symbol: Aries] AND FIRST HOUSE]

=--w--=In order to safeguard yourself against disappointments, failures or sadness, you should be in a quiet frame of mind, in settling important affairs, as it would be more to your advantage to think it over before acting, instead of being too hasty. As love is the only influence which can gain control over people of this sign, love should guide the hand and mind. Your troubles are so generally the result of disturbed mental conditions, due to worry, anger, jealously, impatience, etc., that the way to avoid them is very clear. Calmness, self-analysis and complete subjugation of the passions, will enable you to become healthy, influential and successful in all you undertake.

=RELATIVITY OF ARIES [Symbol: Aries] AND NUMBER 1=

=--x--=The Sub-Lumas, being a part of the same window of Life as the Lumas, they also have a numeral relationship to the Lumas above them. Thus, Aries [Symbol:

Aries], the first Sub-Luma, is under the influence of the 1 space, the God Luma, and is really an earthly reflection of the Almighty Judge Supreme, in that Aries [Symbol: Aries] people are excellent judges of people and events although at times hasty in their conclusions. They sometimes fail to remember that APPEARANCES may be deceptive. Capricorn [Symbol: Capricorn], the 10th sign, also represents the Number 1. So frequently a priest and advisor. Almost a god to many people.

=FIRST HOUSE OR CYCLE=

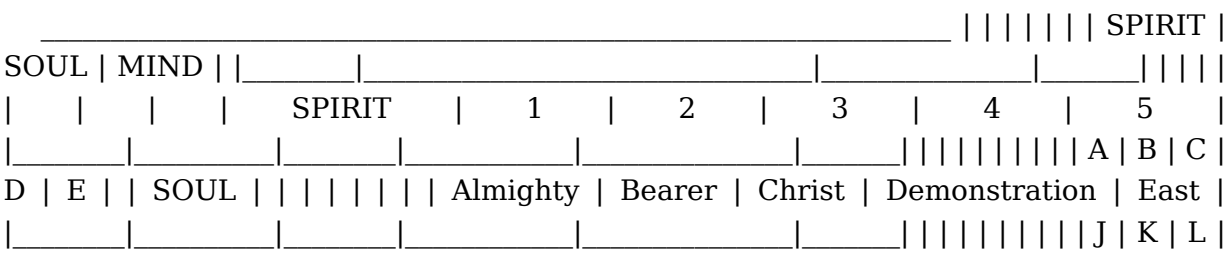

Aries [Symbol: Aries] influence. Age next birthday 1-13-25-37-49-61-73-85-97. (See Definitions 21 and 22, page 8).

[Illustration: Symbol: Aries]

=--y--First House--=Aries [Symbol: Aries] influence. This House or year pertains to early life influences, habit-forming life, changes of habits in life and relates to living conditions. These influences are general and in your First House you may look for changes affecting these portions of life. The God-Spirit will focus most noticeably in Mars [Symbol: Mars] during the years of your First House, so far as you are concerned, so you may use energy, force and combative qualities in changing to advantage during these years; the figures always refer to the birthday COMING. Thus, if you will be one year old, or thirteen years old, or twenty-five years old, NEXT birthday, you have finished the previous year and are NOW in that first, thirteenth, or twenty-fifth year. The years affected by the First House, therefore, are: 1st, 13th, 25th, 37th, 49th, 61st, 73rd, 85th, 97th, etc.

=--z--=When passing through this house, all matters pertaining to the personality will be brought to the fore, and much depends upon your actions and upon your attitude of mind, as to how the passage through this house will affect you. All matters relating to the head now come to the front. You will now be more aspiring and ambitious than ever and will desire progress and will wish to reform existing conditions, and consequently sometimes the health is affected by your ardency in accordance with the strength of the horoscope at birth. The passage through the first house nearly always produces changes. It will be well for you to note carefully the kind of changes you desire, so as not to make mistakes. In a general sense you may expect the personality to come to the front, and all matters connected with the form side of existence to engage your attention. You will find yourself feeling more courageous, enterprising, frank and outspoken, so as to face any difficulties promptly and bravely.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= =(Showing the values and inner meanings of the English Alphabet)=

[Sidenote: THE SON LUMA]

=(The 2 Space)=

[Illustration: 2]

=--a--=Title, CREATIVE CHRIST CONSCIOUSNESS. These words have a value of 119. 1 and 1 and 9 make 11. The 1 and 1 of the 11 make 2, symbolizing the Second Person of the Godhead.

=--b--=The Creative Christ Consciousness (space 2 of the Chart of the Lumanus) represents the Soul in the high vibration. Soul and Lord mean the same in the Bible; and the Bible is much more easily understood if soul is known to mean the Lord. Each individual being on earth, man or beast, bird or serpent, vegetable or mineral, is expressing a part of that Soul or Lord. Man is the Christ Consciousness expressing intelligence. All the rest beneath man are vibrational imitations or images of that expression. Having the Creative Christ Consciousness, whether consciously or unconsciously expressed, man is thus a god, in accordance with the scriptures, and the confirmation of the Christ Consciousness. (Psalms 82:6. John 10:33, 34.) The words Creative Christ Consciousness total to the number 2.

=--c--=The color for the Son Luma or 2 space, is Gold. The Son Luma represents the Soul before its entrance into this incarnation in an earthly temple or body.

=--d--=The letters under the 2 are, B, K and T, meaning BEARER of the KING'S TITHES. It symbolizes the Soul which inspires you to Tithe or give the Tenth to spiritual things. It brings the secret blessing.

[Illustration: CHART OF THE LUMANUS]

=Personally=

=--e--=A conspicuous 2 in your name or birthdate (see page 13, paragraph e) tends to make you tactful, diplomatic, shrewd, and a power back of someone more dominant at times. Makes you somewhat feminine, kindly and gentle. Faults to be careful of: deceit, shallowness, a "me-too" servility and timidity.

=--f--=The planet of the 2 is the Moon [Symbol: Lune], decreasing. The sign of the 2 is Taurus [Symbol: Taurus] and Aquarius [Symbol: Aquarius] the 11th sign. 1 and 1 make 2. If your name has in it a B, it increases your Soul qualities in the 2; if a K, it increases your Mind qualities; if a T, it increases your Body qualities, particularly as applied to your Spiritual understanding in all three cases.

=POSITIONS OF THE NUMBER 2=

=--g--2 as a Soul Path Number= (see page 3) shows that you chose a pathway where the qualities of diplomacy, tactfulness, and arbitration could be used. Your soul is seeking especially the use of the affections and emotions and their effects in life. You will naturally choose peaceful and quiet paths and about the only time you would fight is in defense of a friend, a loved one or a helpless person. In your own differences with others you will seek a path of peaceful, even though wordy, settlement.

=--h--2 as a Personality Number= (see page 4) tends to make you a sort of "power behind the throne," seeking the position of consultation, trust and counsellor to some more dynamic personality. Your personality readily makes friends and thus makes you a fine "mixer" for some types of genius who need friends but find it hard to make or hold them. You can therefore best manifest in this life as a secretary, diplomat, accountant, lawyer, adjuster of claims, etc. You will also find a natural channel along the lines of social service work.

=--j--2 as a Predominant Name Number= (see page 4) tends to attract to you those who are diplomatic, suave and even the cunning types, for which you must be careful and not be deceived by flattery. You will also naturally attract to yourself those who would use your diplomatic ability and then not admit that you had anything to do with the victory obtained. Be careful to see your own interests as well as the other person's in what you do and make them admit to start with that they DO need your help and will pay you for it in whatever manner you may now deem best. Otherwise you will get soured on the "ungrateful world" and spoil your life as well as others.

[Sidenote: THE NUMBER 2]

=--k--2 as a Destiny Number= (see page 5) shows possibilities in the lines of diplomacy, law and soliciting. It shows that your destiny is best worked out when working with others, although you may, through diplomatic and shrewd understanding, be up close to the head of a large business or very successful enterprises. Still, you would always have a definite head to look to for final orders. Part of your destiny can well be worked out in social reform work of some type.

=--kk--2 as a Public Appearance Number.= As a Public Appearance Number, the 2 symbolizes the lawyer, the diplomat, the planner and giver of ideas. It shows that you can best appear before your public in a concealed manner, as the power BEHIND the apparent head of things. With this 2 you should strive to make your greatest mark as the director of the mind that will appear before the public. Keep your ambitions within those bounds.

=--l--Warning to Number 2.= FAULTS: Very easy for the 2 person to get disgruntled or peeved, to allow ambition to carry on beyond the right depths and to strive for that which will be practically so unattainable as to embitter, even if attained. Use diplomacy on self and show yourself what a good life this is after all, everything considered.

=THE SECOND PRINCIPLE OF CREATION=

The SECOND Principle of Creation is CHOICE.

CHOICE, properly exerted, always leads to RICHES. CHOICE always affects your Riches, in health, mind, money or soul-perception, according to the way and manner in which you exert the CHOICE.

=--m--=In the first Chapter of Genesis we are told that on the Second Day God DIVIDED, or made a choice between, the waters (Truth) which were UNDER the firmament, the Physical Truth; and the waters (Truth) which were above the firmament, the Spiritual Truth.

=--n--=In this life the Enumerator learns to choose which is the Spiritual Truth, which is the Psychic Truth, which is the Monetary Truth, which is the Mind Truth and which the Animal Truth. Then the Enumerator APPLIES each Truth in the plane where it belongs.

Thus we know and USE the Truth on each plane, without belittling any. By this means we do not need to convert the Body or Animal nature. We merely keep it in its place and make it serve there, WHEN and HOW we will.

=TAURUS= [Symbol: Taurus] =SUB-LUMA--Sign No. 2=

[Illustration: Symbol: Taurus]

=--nn--=The Taurus [Symbol: Taurus] Sub-Luma influences those born from April 20th to May 19th inclusive, in all years. The best forms of its expression would be along the lines of Drama; management of Music and Public Entertainment in a comprehensive way; Engineers, especially engaged in constructing extensive earth works, hydraulics, civil engineering, etc.; precision work of all kinds, like Chemistry, Medicine, Designing, Patterns and Models. Taurus [Symbol: Taurus] people frequently succeed quite well as managers of large estates and large farms.

=Marriage=

=--p--=The person expressing in the Taurus [Symbol: Taurus] Sub-Luma, should mate for harmony and mutual benefit, with one expressing in one of the Sub-Lumas of

Capricorn [Symbol: Capricorn], Virgo [Symbol: Virgo], Libra [Symbol: Libra], Pisces [Symbol: Pisces], Cancer [Symbol: Cancer] or Scorpio [Symbol: Scorpio].

=ASTRAL CLASSIFICATION=

=Principal Planet Venus= [Symbol: Venus]

=--q--=Venus [Symbol: Venus] is the planet of love and beauty. It strengthens the affections and it will make the social side of your nature active and strong. You are warmhearted and companionable, fond of the society of friends and relatives, of a loving and peaceable disposition, and favoring all that is harmonious and refined. You are fond of ease and comfort, of pleasure and luxury, and you may need to exercise some restraint over this side of your nature. Venus generally gives those who are born under it good taste and a love of beauty, of fine surroundings, clothes, ornaments, decorations, and an appreciation of neatness and orderliness. You probably have the ability to develop the aesthetic side of your nature in the direction of singing, music, art, poetry, etc., if you care to do so. The influence of this planet can also be adapted to a business life, as it gives some financial ability and good luck. The disposition is usually cheerful, hopeful and good natured, and brings popularity and many friends.

[Sidenote: TAURUS [Symbol: Taurus]]

=--r--=Venus [Symbol: Venus] is the chief significator of love and marriage. It also has some influence over money matters and general prosperity, as well as giving a sense of beauty. You deal best with caterers, entertainers, sweethearts, ministers, hotel managers and theater owners. Venus is the principal planet for Taurus [Symbol: Taurus], April 20 to May 19, and for Libra [Symbol: Libra], September 23 to October 22.

=Personal Classification=

Preferable Jewel Emerald Colors best to use and wear Rose Pink & Green Most Advantageous Day Friday Biblical Belongs in the Tribe of Reuben in Israel Bible References Gen. 49:3, 4; Deut. 33:6

=--s--=Taurus [Symbol: Taurus] is the head sign of the earthly triplicity, a negative and fixed sign, and second of the Zodiac. You have a strong character, dogmatic and set in your ways, but usually sacrifice much to attain. You are very much interested in all psychic things, yet strongly inclined to materialism. Learn to trust your own intuitions and judgments, and do not allow the opinions of others to sway you. Love affairs take up a great part of your thoughts at present, but as you grow older they will be subordinated to their proper place in your life, and your marriage is destined to be very happy. Mentally you have a great deal of power, but desire is very often stronger than the will, and will express your mentality in a very matter-of-fact manner, as you seem to delight in being what you term "practical." In other words, you are more objective.

=--t--=You have distinct talent for the stage, and at times feel you would enjoy a Bohemian existence, but at other times know you prefer a solid comfort at home to all

the hotel life and travel the stage would entail. You lift heavy burdens from the shoulders of others, out of mere kindness--with no thought of return from them, and yet out of mere kindness you are surprised at the ingratitude with which your efforts are received. You are fond of the opposite sex, but as a whole, rather than of individuals. You will form one or two strong attachments, which will have the effect of changing your life. In money matters, you will be moderately successful.

=--u--=You have a strong constitution and a great deal of magnetic power, and tend to suffer from too much life, rather than too little, and are therefore in danger of apoplexy and such ailments, unless you use your natural healing powers on yourself. You always have better health when you are throwing off some of your magnetism, and in this respect, it is best for you not to become too reserved, or secretive, so that your forces may be liberated to benefit others, as well as yourself. Judged from the house of love and marriage, some trouble in connection with those affairs is shown. But at the same time, as the sign Taurus [Symbol: Taurus] is in close relation to the Second House, the House of finances, this is an indication that you should gain financially and socially through your marriage, but this appears more along the lines of finance than through reciprocal affection. To be successful and happy in marriage, you should choose a partner born between August the 22nd and September 2nd.

=Relativity of Taurus= [Symbol: Taurus] =and Number 2=

=--v--=The Taurus [Symbol: Taurus], or second Sub-Luma, is under the secondary influence of the 2 space, the Son Luma. Taurus [Symbol: Taurus] often shows its occult nature in the Bearing of the King's Tithes. Aquarius [Symbol: Aquarius], the 11th sign, is also under the 2 vibration indirectly as 1 and 1 make 2.

=Second House or Cycle, Taurus= [Symbol: Taurus] =Influence=

=Age Next Birthday--12, 24, 36, 48, 60, 72, 84, 96=

[Illustration: Symbol: Taurus]

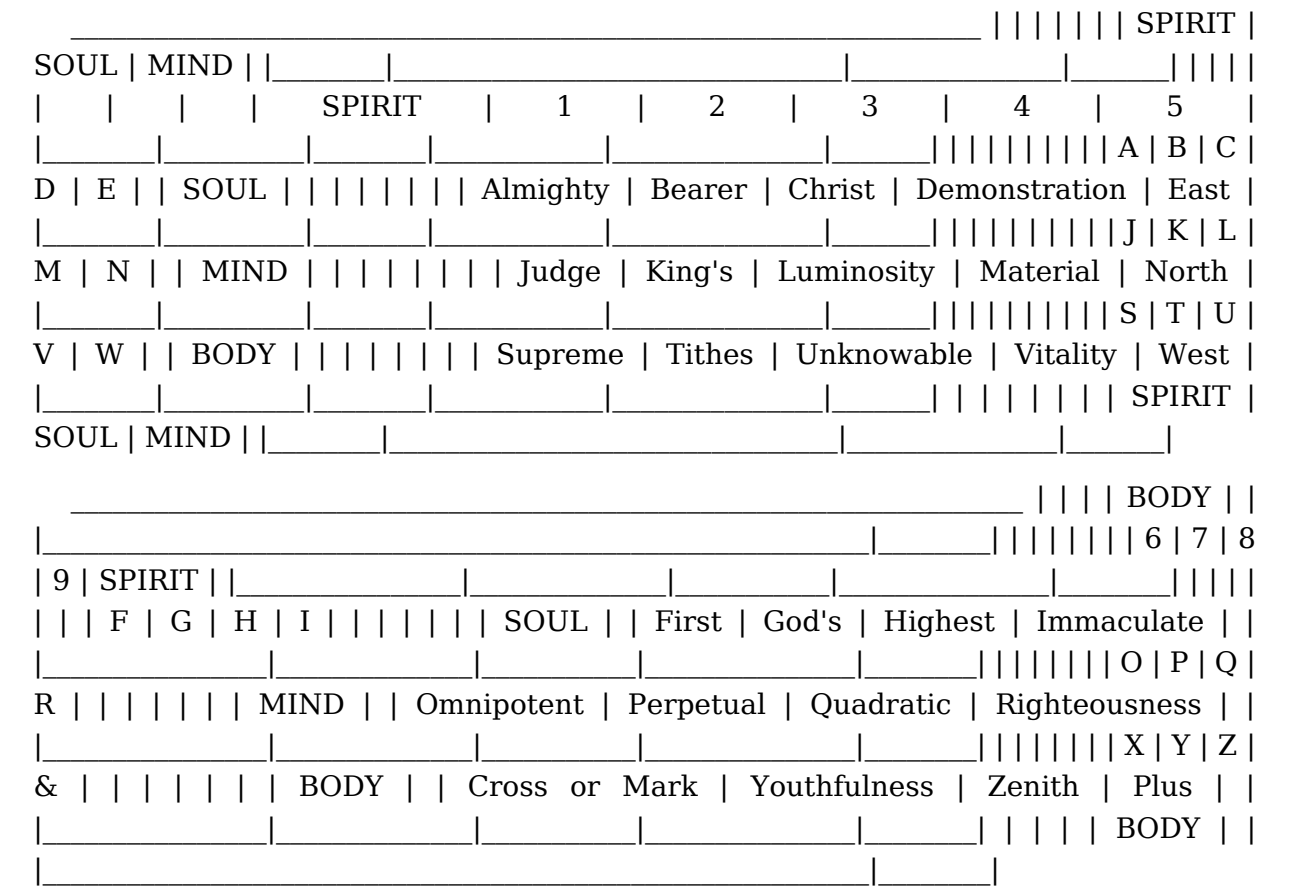

=--w--Second House--=Taurus [Symbol: Taurus] influence. The Spirit focuses in Venus [Symbol: Venus], planet of love; this House or year pertains to money matters, ventures in vacant land and large real estate transactions, property, etc. Its tendency is to be a good money year and rather a disrupted domestic year, easily tainted by jealously. These figures of the age next birthday, giving the House or Cycle, apply to persons, cities, nations, etc., and will be more elaborately worked out in the further studies in the Enumeration.

[Sidenote: SECOND HOUSE]

=--x--=The Second House has largely to do with wealth, finance and similar situations. Therefore in passing through this House, such matters will be brought to the fore. You may now expect favors from influential patrons and helpful friendships, but they will be followed by misunderstandings, oftentimes. There are many advantages to be gained at this time, as this is a good year for pecuniary interests. However, some difficulties in business and love affairs will be experienced, and hidden enemies will also effect your position. Great care should be used in lending any money or making investments of trust, as they will not come duly to hand. There

is also danger of being betrayed or robbed, and if you can take the right advantage, you can nearly always find ways and means to increase your income, either through judicious investments or engaging the mind in general financial affairs to your own benefit.

=(The 3 Space)=

[Illustration: 3]

=--a--=Title, SPIRIT OF GOD. These words have a value of 66. 6 and 6 make 12. 1 and 2 make 3. Representing the Holy Spirit or Life Element in Man. Color for the Spirit Luma, or 3 space, is Blood Red.

=--b--=The letters under the 3 are C, L and U, meaning CHRIST LUMINOSITY UNKNOWABLE. It symbolizes that Spirit which could only come to our consciousness, when the KNOWABLE Christ in the body should go away.

=--c--=The Spirit of God (space 3, on Chart of the Lumanus), known to some as the Holy Ghost, the Paracleet, etc., is always an indwelling Presence, separated purposely from the body and body mind by the Creative Christ Consciousness, the

Lord or Soul, because the carnal mind of the body is not subject to the law, or vibrations of God, neither, indeed, can be. Our God, being the intense pressure of all Creation, is a consuming fire. (Rom. 8: 7, 8. Heb. 12:29.) The words Spirit of God total to the number 3.

[Illustration: CHART OF THE LUMANUS]

=Personally=

=--d--=A conspicuous 3 in your name or birthdate tends to make you artistic, diffusive, esthetic, expressive and musical, generous and happy in nature. Faults most likely; dreaminess without practical application, diffusion and waste of time, hoping things will "turn up."

=--e--=The planet of 3 is Jupiter [Symbol: Jupiter]; the sign of 3 is Gemini [Symbol: Gemini]. A prominent C in your name means your Soul will naturally turn to Spiritual things; a prominent L gives you power to teach or lecture; a prominent U inclines you to spiritualize in the use of your body, to be esthetic.

=Positions of the Number 3=

=--f--3 as a Soul Path Number= shows that you chose the artistic in your expressions. Form, size, color and weight, artistically combined, will always be a delight to you and should be sought by you. Even in the most humble surroundings, you must try to have things neat and clean and as far as possible, artistic. Yours is the planning, the dreaming part of life, and it is all right for you to dream on, if you can attach your dreams in a practical way to the day's work.

=--g--3 as a Personality Number= is likely to bring you a soft, gentle voice of some considerable power, an artistic perception, broad mental vision and much tolerance of the other person's viewpoint. Do not allow this part of your Personality to run away with you, so that you imagine yourself to be so "spiritual" that the rest of the world is beneath you, that your beautiful "dreams" are too deep or too mysterious for the common people.

=--h--3 as a Predominant Name Number= means that you will be likely to attract to yourself other dreamers and planners. You should select with care only those who have actually accomplished something, not the bragging "will-be" types. Absorb the imaginations and dreams of your companions, only to find a practical way to put them out into some form of expression that will reach all the people possible.

=--j--3 as a Destiny Number= means you have chosen a destiny in this life that is capable of leading you to the heights in some artistic form of expression. It is up to you to find what this is, whether it is painting, music, sculpture, literature, designing, acting, journalism, reformer or physician; and then, STAY WITH YOUR ONE OBJECTIVE until you arrive.

=--jj--3 as a Public Appearance Number.= This brings in a scattering of energies, but of a good kind as in the case of a great orator, actor or singer. In the matter of gaining fame or fortune, you should always strive more to the making of MORE money, a LARGER income, rather than toward too much economy or savor what you

do get. Put your mind on just HOW you will SPEND your income IN THE DIRECTION OF YOUR GREAT OBJECTIVE ONLY. Remember, "there is that which scattereth, yet tendeth to increase." (Prov. 11:24.)

[Sidenote: GEMINI [Symbol: Gemini] SUB-LUMA]

=--k--Warning to Number 3.= Stop dreaming without purpose. As soon as you have put a dream down to a practical DOING, go and Do along the line of the dream and plan. It is all right to dream and plan, "IF you PLAN your WORK and work your plan." Do NOT tell your plans to anyone, it throws away the energy needed to bring forth the plan, it wastes your STEAM. DO, don't talk.

=The Third Principle of Creation=

=--l--=The THIRD Principle of Creation is ORDER. ORDER when rightly exerted always leads to WISDOM.

=--m--=ORDER always affects your WISDOM in health, mind, money or your perception of Soul, in accordance with the way and manner in which you apply the Principle of ORDER in your life and your affairs.

=--n--=In the First Chapter of Genesis we are told that on the Third Day God put the sea all in one place and the dry land appeared and that He created the trees and herbs. In other words, He brought ORDER out of chaos, and showed forth the WISDOM of His universe and its construction.

=--nn--=In this life the Enumerator learns how to set all things in ORDER, how to make affairs grow into successes, because each thing fits into its place in its right time.

=--p--=We begin to make a study of reactions to know what actions to take to get those certain reactions, to know what the effects will be and what to do to get those effects. We put things in ORDER as we learn WISDOM.

=GEMINI= [Symbol: Gemini] =SUB-LUMA--Sign No. 3=

[Illustration: Symbol: Gemini]

The Gemini [Symbol: Gemini] Sub-Luma influences those born from May 21st to June 20th inclusive, in all years. The best forms of expression will be found along the lines of Teaching in certain Commercial types of schools; Writing, possible fiction; Publishing; Philanthropic Enterprises; Secretarial Work in Politics; Cultural or Intellectual pursuits, such as libraries and collections; Invention; Mechanics; Commercial Travelers; Literary, Dramatic and Musical Critics; and frequently fine Singers and Musicians.

=Marriage=

=--r--=The most harmonious and mutually beneficial mating would be found with one expressing in the Sub-Lumas of Aquarius [Symbol: Aquarius], Libra [Symbol: Libra], Virgo [Symbol: Virgo], Leo [Symbol: Leo], Sagittarius [Symbol: Sagittarius], or sometimes Aries [Symbol: Aries].

=ASTRAL CLASSIFICATION=

=Principal Planet Mercury= [Symbol: Mercury]

=--s--=Mercury's [Symbol: Mercury] influence is over the brain and nerves, and it has more to do with the mind than with the senses. It gives you good mental ability, ingenuity and adaptability, fertility of resource and wit, and probably a good memory. You should be apt at speech and argument, plausible and of substantial fluency in conversation; but along with this there sometimes goes a degree of subtlety and secrecy, as well as reserve or retirement. Your whole nature will seldom be shown to the world, and there will be one side which you will never show even to your most intimate friends. Your mind is active but a little lacking in concentration and perseverance, and you are likely to occupy yourself with too many subjects, to change a little too rapidly, and to have too many irons in the fire. You can adapt yourself readily to the moods and opinions of people, and can see truth under quite opposite disguises.

=--t--=Mercury [Symbol: Mercury] presides over the mind and is known as the "convertible" planet. It is neither positive nor negative, but both. It is the planet of the Adept, being the planet of adaptation in the widest sense of the word. Mercury [Symbol: Mercury] is termed the "Winged Messenger Of The Gods," and takes upon himself the vibration of the other planets. It is, in one word, the planet of reason. In every Horoscope, Mercury [Symbol: Mercury] will represent the Ego in physical manifestation, the actor, playing the part allotted to him during each separate earthly existence; and at the close of each life Mercury [Symbol: Mercury] represents the knowledge gained, as memory, the cram of which is rendered a permanent possession of the Ego as wisdom. You deal best with publishers, speakers, politicians, teachers, lawyers and inventors.

[Sidenote: GEMINI [Symbol: Gemini] SUB-LUMA]

=--v--=Gemini [Symbol: Gemini] is the sign of the "Twins," and head sign of the air triplicity. You are extremely affectionate and generous, very courteous and kind to all. You are careful, methodical and prudent. A good manager, and you have a strong musical talent, and could probably compose, if you studied seriously. You are quiet and reserved, preferring to sit by yourself in a corner with a book, but this will never make you any money. You must make a point of keeping your word, as nothing is more important in life than to have this reputation. Learn to give yourself freely; only by loving do we win love. Do not be sarcastic to others, they shrink from you. You are short-sighted only to your own faults, as you are keenly aware of those of others.

=--w--=You are likely to go to the extreme in everything you do, always hunting for occupation and anxious to go, and to do something, you know not what, and are filled with a dissatisfaction, which nothing can explain. You are given to regrets, are very

suspicious and very untruthful. You must learn patience and silence, keep the conversation free from personality, remembering that heaven is within the temple of the human breast, and not outside of it. You must learn continuity and consistence, and you should never permit yourself to do the acts you have condemned in others; you should firmly resolve never to complain or murmur, as this habit increases with practice to an awful extent; you are brilliant and usually show to advantage on account of your wonderful magnetism. You are a fluent talker, and sometimes, apt to be superficial.

=--x--=Mercury [Symbol: Mercury] is your rising planet, and is nearest to the Sun [Symbol: Sun], of any yet discovered. His influences, when in no aspect with any other planet, and if in the ascendant, causes great restlessness and desire of change. This planet is the chief ruler of the mental faculties, and great care must be taken to note what aspect he forms with other planets, for on that will chiefly depend the mental dispositions of your nature. The planet is termed "The Messenger of the Gods," and he seems to have the special office of being nothing in himself, but the messenger of the other planets to the Sun [Symbol: Sun]. It points to the line of your genius in mental and Intellectual Pursuits.

=Relativity of Gemini= [Symbol: Gemini]=, and the Number 3=

=--y--=Gemini [Symbol: Gemini], or the third Sub-Luma, indirectly relates to the 3 space, the Spirit Luma, the Christ Luminosity Unknowable. Christ Himself said, "He that is born of the Spirit is as the WIND," and Gemini [Symbol: Gemini] is the HEAD AIR SIGN in Astrology.

=--z--Third House:= Gemini [Symbol: Gemini] influence. During these years the God-Spirit focuses in the planet of Mercury [Symbol: Mercury], representing knowledge, memory and the carrying of messages. The Third House influence will bring to your attention many things concerning brothers, sisters, cousins, aunts and uncles; it will show forth some things in journeys and business changes.

=--a--=The Third House relates to short journeys, brethren and relatives and it effects all mental conditions, stimulating to greater and more extensive thought; will create troubles and may cause strife and so injure the interests. There will be a tendency to brood over conditions, desiring to alter in some way the environment in which you are placed. This position never fails to bring or give some restlessness, while it also brings one into contact very closely with persons who have some claim upon them. You should control well as the feelings are at a high tension, and are, therefore, likely to be easily effected. For one cannot be too careful to avoid disgrace of both wealth and friends, or their plausibility will put you much at their mercy.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= =(Showing the values and inner meanings of the English Alphabet)=

[Illustration: Chart of the Alphabet]

[Sidenote: THE SOUL LUMA]

=(The Eye Space)=

=--b--=Here the Holy Trinity come together to form the Soul. Here the FATHER-MOTHER GOD, the CREATIVE CHRIST CONSCIOUSNESS and the SPIRIT OF GOD (the 1, the 2, the 3) are shown to have determined "from everlasting to everlasting, before ever the earth (body) was formed" to bring forth the EYE OF AUM, the I AM, the Soul or Subconscious Mind. The Color for the Soul Luma is the Sky Blue.

[Illustration: Eye of Aum]

=--c--=The Soul has no letters and no numbers. It is the insulator between the Physical Body and the Triune God, "a consuming fire." Yet that Triune God here Man-I-fests, or Feasts with Man.

=--d--=The color for the Soul being Blue, is like the air we breathe and by which we mainly keep the "Soul and Body together."

[Illustration: CHART OF THE LUMANUS]

=--e--="He that is born of the Spirit is as the WIND (air in motion.)" "Thou knowest not whence it cometh nor whither it goeth." The Soul marks its own path, chooses its

earthly birth as to time, place and parents. The Conscious Mind (Nicodemus) cannot understand this because it does not understand the "everlasting to everlasting" idea of the Soul and spirit. God is its dwelling place and any attempt to describe God only limits our views of Him.

=--f--=The Eye Space, therefore, has no earthly designations at all, such as letters, numbers, signs, or planets.

=THE BODY LUMA=

=(The 4 Space)=

=--g--=Title, PHYSICAL BODY. These words have a value of 58. 5 and 8 are 13. 1 and 3 are 4. The physical Body contains the Man-I-fested portion of the Soul (the word Soul has a value of 13--4). Thus man in his Physical Body is the image of the Father-Mother God (1) because the total of 1 and 2 and 3 and 4 makes 10, and 1 and 0 make 1.

[Illustration: Eye 4]

=--h--=The letters under 4 are D, M and V, meaning DEMONSTRATION of the MATERIAL VITALITY. The color of the Body Luma or 4 space, is Green, for growth and prosperity.

=Personally=

=--j--=A conspicuous 4 in your name or birthdate gives you a tendency to be practical, organizing, brotherly, electrically interested in mechanics, straightforward, "foursquare," and a good manager. Faults to be avoided are harshness, criticism, lack of artistic taste, and lack of appreciative expressions for the kindness of others.

=--k--=The planet of 4 is the Sun [Symbol: Sun], negative; the sign of 4 is Cancer [Symbol: Cancer]. A prominent D in your name means your Soul will demonstrate secret things to you in the Silences, as to its plans; M means that your mind will be interested in psychic things considerably; V means that your body will love the soulful and deep in music, art and drama.

=--l--=It is the conscious or Body mind that causes the fears, the agitation, the raising of the EMOTIONS, in the struggle to attain to the eternal life, which the intellect perceives the Soul to have. The body and body mind have a strong animal desire to go on forever in the body. The Soul knows that this was never intended, yet nearly all religions teach a literal resurrection of the body. Paul says this body DIES. (1 Cor. 15:35-38.)

=--m--=Intellect is afraid of death, for that is the end of that phase of its existence. All religions came out of the Soul state into the intellectual state when they became =organized= and began to build fine buildings, own property, control temperal lives and affairs and continue their errors by teaching a fleshly resurrection. Thus religion lost its true state, the original Truth (seen in the Eye of Aum, the I AM, space on the Chart of the Lumanus), and became Intellectual. That is why nearly all religions have increased the fear of Death in man, through preaching a tribal God of jealousy,

hell-fire and other worn-out ideas, such as doctrines of devils, etc. (1 Tim. 4:1.)

[Sidenote: THE NUMBER 4]

=--n--=When man projected himself into a Physical Body (space 4 on the Chart of the Lumanus), the Trinity was demonstrated on earth, that is, the Spirit (value 1), and Soul (value 4), and Body (value 1) total 6. Man could never have recognized the Creative God in His fullness, unless man first descended into the depths of a Physical Body (value 4), (space 4 on the Chart of the Lumanus), which would not and could not vibrate to the God vibrations, although the God-vibration should vibrate through IT. Thus man in the Spirit, and Soul, and Body trinity is able to get a comprehension of the Holy Trinity of the Father-Mother God (value 1) and the Creative Christ Consciousness (value 2) and the Spirit of God (value 3) (spaces 1 and 2 and 3 on the Chart of the Lumanus). These are commonly, though erroneously, treated as a combined Trinity in the expression "Father, Son and Holy Ghost." There should ALWAYS be a pause, at least to the extent of the word "and" between each two of the names. (1 Thess. 5:23. Heb. 4:12.)

=--nn--=Thus the Soul projects itself into this world to take on an EARTHLY Body, Earthly Intellect, Earthly Thoughts, Habits and Brain. It has use for all these and they are not evil. When it has cut its curve through this earth plane life as a part of its great curve through Eternity, it DROPS the body and Body Mind with all its Intellect, Ideas, Inventions, Hopes, Fears, Triumphs, and Joys, and goes ON as a Soul (Sub-Lumas Aries [Symbol: Aries] to Pisces [Symbol: Pisces] on the Chart of the Lumanus), still along the lines of its eternal circuit, adding the experiences of this plane to its GROWTH, but NOT changing its COURSE on account of the earth life.

=--p--=It does not go to a heaven or hell, but on and on to new experiences and ideals, coming back into the earth plane when it gets ready, or when the earth plane has ADVANCED far enough to again receive it. Truly, 'Ye are gods' indeed! (Psa. 82:6. John 10:33, 34.)

=Positions of the Number 4=

=--q--4 as a Soul Path Number= means that you have chosen the path of the practical things of life, especially the things that will reach the greatest possible number of people. It is a path of some hardships and labor, in the working out of the God plan within you, but it is also the path of great rewards and a steady even flowing life. If you use its powers, it is the square deal pathway, and you should choose the path that renders an honest service for an honest return.

=--r--4 as a Personality Number= shows practical honesty of character, reliability, and considerable tendency to hard, earnest work of a useful, practical type. This tendency to hard labor makes also a tendency to hard, harsh speech, often unintended. Do not let this dominate you. Be kind to the home folks, even if you are tired.

=--s--4 as a Predominant Name Number= shows that you will attract those around you who will look to you as a leader in a practical way, such as leader in a union, or small club or lodge, where you are likely to be given an office with practical duties.

You will also attract to you those who love a home as a quiet place for the family, rather than a social center.

=--t--4 as a Destiny Number= shows that you are likely to make a large name for yourself, along the line of some practical invention, or the inauguration of a new system that saves labor, time or values to a great extent. It will also have a tendency to make you widely famous as a writer on certain technical subjects, especially some of the "how" types of books for some such trades as engineer, chemist, electrician, cabinetmaker, builder, architect, manager, merchant, teacher, business man or military ideals. At any of these trades you may make your mark and 4 as a Destiny Number makes it more likely that you will do so.

=--tt--4 as a Public Appearance Number.= This gives you a special talent for organizing small groups, and to get them to support you. It makes it easy for you to convince your public of your honesty and sincerity. You must take the part of a "good fellow" a good mixer. You are naturally adapted to come before the general public, the common people. You should be especially careful to so school yourself that you will be able to "walk with kings, yet not lose the common touch."

Your best and most profitable public appearances will be before the common or working classes as a leader and teacher.

=--u--Warning To Number 4.= Easy for strong 4 person to overestimate his own importance and to conclude that because he really is an earnest worker, that he is the ONLY one. When 4 obtains too much authority, he is likely to be a type of bully and conceited person. Do your work every day, looking to advancement, but do not let envy master you, if you are one of the very splendid type known as the 4 person.

=The Fourth Principle of Creation=

=--v--=The FOURTH Principle of Creation is COHESION. COHESION, properly exerted, always leads to STRENGTH.

[Sidenote: FOURTH PRINCIPLE OF CREATION]

=--w--=COHESION always affects your strength in physical health, in mind, in money matters and in your uses of Soul Force, according to where and how you apply the principle of COHESION.

In the First Chapter of Genesis we read that on the FOURTH Day the Principle of COHESION was applied, by the placing of the stars and the lights in the Firmament. We learn that they were placed there, on the FOURTH day for FOUR reasons: for SIGNS, for seasons, for days and for years. This is recorded in the FOURTEENTH verse. FOUR is the number of struggle and of strength exerted. COHESION, as we said, leads to STRENGTH.

=--x--=In this life the Enumerator learns HOW to gain strength by making his plans hang together around one idea, in other words by exerting the Principle of COHESION, the binding together. The Enumerator knows that no man liveth to himself and no man dieth to himself, therefore the real strength of any plan is in working WITH those who will effect that plan. To bind together by the bonds of love

and of mutual interest, which is the strongest COHESION.

=CANCER= [Symbol: Cancer] =SUB-LUMA--Sign No. 4=

[Illustration: Symbol: Cancer]

=--a--=The Cancer [Symbol: Cancer] Sub-Luma influences those born from June 21st to July 21st inclusive, in all years. The best occupations for one born in the datest of this Sub-Luma will be found along the lines of Teaching, generally common school or similar work; Preaching and the Ministry; Lawyers; Lecturing; Debating; Managing of Hotels, Restaurants and Groceries; Trading; Commerce; Accountancy; Music; Nursing; Hairdressing; Manufacturing mechanical or machinery appliances; studying Philosophy of mystic or occult types. Cancer [Symbol: Cancer] people frequently succeed quite well as School Presidents and Managers.

=Marriage=

=--c--=The most satisfactory mating for the Cancer [Symbol: Cancer] Sub-Luma will be with the Sub-Lumas of Scorpio [Symbol: Scorpio], Pisces [Symbol: Pisces], Taurus [Symbol: Taurus], Capricorn [Symbol: Capricorn], or Virgo [Symbol: Virgo]. It is well if the Cancer [Symbol: Cancer] type do not marry at all, if they can thus abide.

=ASTRAL CLASSIFICATION=

=Principal Planet--the Moon= [Symbol: Moon]

=--d--=The Moon's [Symbol: Moon] influence is to form, nourish and sustain, and it pertains to the personality. The domestic and home-loving side of your nature is strong, and you are drawn towards family and parents. Your imagination is well developed, and plays a large part in your life. Feeling and sensation are strong in you. You are likely to change and fluctuate in your moods from day to day, and to lack energy and persistence. You have the ability to become practical and to deal with affairs as you find them in a capable manner. You could adapt yourself to a variety of subjects according to your training; for domestic life, business, practical science and applied art all apply to those who are born under the influence of the Moon [Symbol: Moon]. You are careful and prudent, and inclined to economy and foresight in all things, and are practical and capable when you do not let your imagination or your feelings run away with you.

=--f--=Your desires and appetite comes from the vibration of the Moon [Symbol: Moon], which is your ruling Planet, and when the great struggle between your will power and your desire begins this planet will restrain you from some influence upon your senses, in the way of right or wrong. You are orderly and methodical in your

habits, and you know that "Order is heaven's first law." You will probably be happy and no one shall take your happiness away from you, if you only keep it within the limits of your home and the sanctuary of your heart. Besides a few solid friendships, you will have very treacherous friends, one in particular whose odious conduct towards you will almost wreck your life.

[Sidenote: FOURTH HOUSE]

=--g--=This indicates two marriages for you, and it denotes some kind of misfortune in connection with your first union, but your second marriage will be a very happy one; by your work and personal merit, you will be able to acquire considerable wealth, but you will be kept poor by imprudent alliances or reckless speculations. Your friends will be many and really devoted, and you may have a person who comes from a high standard and position in life, who will contribute to your final triumph over your difficulties. You are somewhat pessimistic and inclined to alter your views to reach your goal more rapidly. You have a strictly moral nature; your dealings, shrewd, dreamy and mystical.

=--h--=You have good determination and power, but your difficulty is to focus this force to a definite end. You are attractive, clever, and very magnetic, a good talker and conversationalist. You are firm, yet gentle; have a good eye to the main chance, and will make much money. You have a good head for detail of all kinds, yet at the same time, you are capable of carrying out big enterprises. Usually you are a little too close in money matters, and should learn to give gracefully on occasion, and be a little more frank and open in your dealings with others. You are diligent, observing and clever, probably calm, and rather calculating. Learn to trust your intuitions more and place reliance in the guidance of your affectional nature. You are naturally passionate, rather than affectionate. The strong point in your nature, is your determination, and this trait you may use to bolster up all the others. You are brilliant, and always appear to the best advantage. You are kindly and gentle to a marked degree and your friends find it difficult--unless the friend is a Virgo [Symbol: Virgo]--to upbraid you for your conduct, even while they look with some anxiety at your small errors. You are likely to have a fairly easy time in spite of everything.

=Relativity of Cancer= [Symbol: Cancer] =and Number 4=

=--j--=Cancer [Symbol: Cancer], the fourth Sub-Luma, indirectly relates to space 4, the Body Luma. Cancer is the HEAD WATER SIGN, and the Human Body is NINE-TENTHS WATER.

=Fourth House or Cycle--Cancer= [Symbol: Cancer] =Influence=

Age Next Birthday, 10-22-34-46-58-70-82-94

[Illustration: Symbol: Cancer]

=--k--Fourth House:= Cancer [Symbol: Cancer] influence; Spirit focusing through the Moon [Symbol: Moon] the planet of life forces, sex, personality. The Fourth House relates to old age, inheritance, and legacies that are likely to appear; the father of the family and news concerning him, or relatives on the father's side. Possibly of a good position gained through some kind of family scandal or trouble. Fairly good

commercial and trading years.

=--l--=The Fourth House is chiefly concerned with the personal or domestic environment, residence, and family conditions. This will cause you to feel vibrations that you were not conscious of before. You may be apt to be somewhat depending upon the help of others at this time. These years indicate a time when the attachments of the opposite sex are likely to go wrong and affairs of the heart become upset, or deranged. Disappointments, especially in connection with domestic affairs, are indicated and also disputes with superiors and acquaintances, with separations and estrangements. It is, in fact, a year when many things go wrongly. But viewed from a higher standpoint, this is a good influence, for it quickens the personality and calls out all its strength to battle with the changing conditions. For the changes, although apparently disastrous, are eventually for good.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= =(Showing the values and inner meanings of the English Alphabet)=

[Illustration: Chart of the Alphabet]

[Sidenote: THE MORAL LUMA]

=(The 5 Space)=

[Illustration: 5]

=--m--=Title, MORALITY. This word has a value of 41. 4 and 1 are 5. Having now traversed the green age of your innocence in the 4 space, for three periods of time (3x4 are 12) you come out into the wonder year of 13 (1 and 3 are 4) and then in your 14th year (usually) (14 totals to 5) you enter the 5 Space, the Rosy Pink dawn of the new discovery, LIFE. It is your first realization of sex, of Morality. You here begin to decide what you will do with these new Powers as seen in the letters under the 5, the E, N, and W, meaning EAST, NORTH and WEST. East for Wisdom; North for Spirituality; and West for Power. The color of the Moral Luma or 5 Space is Rose Pink.

[Illustration: CHART OF THE LUMANUS]

=--n--=Conversion of the body and body mind (space 5, Chart of the Lumanus), can never be a fact. Any prayers of the conscious mind can never be answered, except as the conscious mind shall ACTIVELY bring to pass the thing wanted, through the Subconscious contact with the God within, (Space 7 on the Chart of the Lumanus), or through the application of the Second Principle, Choice, to the Animal Plane. The most the body can do is to follow after the Subconscious mind and be a servant to it. For "in the flesh dwelleth no good thing," so much so that even Christ rebuked the young man who looked upon the Master's =body= and then called Him good. (Rom. 7:18 to 25. Matt. 19: 16, 17.)

=--nn--=The Soul or Lord has cut a certain curve of Life to be followed out, by the Sub-Conscious mind, on this earth plane (spaces 5 to 9 on the Chart of the Lumanus). The more nearly we consciously learn and follow that curve in this earth life, the more harmoniously and happily we will live in this life.

=Personally=

The planet of 5 is Mercury [Symbol: Mercury], the Sign of 5 is Leo [Symbol: Leo].

=--p--=A conspicuous 5 in your name or birthdate inclines you to be versatile, changeable, moveable, clever, passionate, kindly and humorous. Faults to be avoided are lack of stability, sudden speech without thought and a sort of occasional silliness. In your name E makes you love the mental and philosophic things; things of the Soul; N tends to bring out the sharply intellectual, in the Mind Plane; W brings out the desire to promote the body at the expense of the mind.

=Positions of the Number 5=

=--q--5 as a Soul Path Number= indicates a tendency to live a life of close balance on this earth plane, close to the edges of temptation. It shows that you are constantly making a choice of pathways in your earth life, the choice of the good or the so-called evil. It shows a restless tendency, a seeking, a constant following after every bright idea, to see if this be good or evil, high or low.

=--r--5 as a Personality Number= shows tendency toward applied Psychology, business efficiency and such subjects. It shows deep thought at times, but more frequently a superficial gathering in of the idea at a glance and acting on it impulsively. Splendid memory of faces, numbers and especially pages and references in books is often shown here, giving all the appearance of deep learning. This is

further enhanced by your ability in languages, sciences and learning generally, where the outward show is made by remembering the superficial facts well enough to quote from many angles, without too much real thinking.

=--s--5 as a Predominant Name Number= shows a tendency to attract people of learning around you, to enter into many debates and ideals of a much finer type than you find it practical at all to live up to. It shows the tendency to attract experimenters around you, people who will plunge with you to any depth, simply to see whether you can come up again. The difficult but necessary thing for you is to establish a set line of action based upon calm judgment and common sense and not be led off into gay and glorious ways that lead but to bitter disappointment and regrets.

[Sidenote: FIFTH PRINCIPLE OF CREATION]

=--t--5 as a Destiny Number= shows that your soul has determined to try out all manner of temptations. So strong is the influence that about all you can do about it is to "pray that your flight be not in the winter," that is, that you will not have to make your decisions as to which way to go when in the MIDST of a temptation, but that you will have foresight and forewarning enough to know just what to do and DO it that way. You thus vibrate to the Destiny of ups and downs, and will do best in something that involves much travel, variety and change. You crave the chance to bring forth with originality and novelty. You will therefore find a pleasant destiny if you follow some such occupation as writer, teacher of Psychology, humorist, entertainer or linguist.

=--tt--5 as a Public Appearance Number.= Versatility of appearance is seen here. You would make a good actor or teacher along specialized lines. You would do well in appearing as a humorist or eccentric speaker. Your public appearance will be much helped by a fair knowledge of languages and a good pronunciation of words. You should get a good dictionary and keep it handy. Increase your vocabulary by having a regular habit of referring to the dictionary each time you are in doubt about the pronunciation, meaning or spelling of any word. Jot them down on a slip of paper till you can get to your dictionary.

=--u--Warning To Number 5.= Your entire struggle and downfall is in your own hands! If you do not make the brilliant success you should it will be because of your own self-indulgence, extremes in action or abuse of your opportunities and the breaking of friendships that would have helped you. Live at your highest powers, or you will sink to the lowest depths! There is practically no middle road.

=The Fifth Principle of Creation=

=--v--=The Fifth Principle of Creation is DISCARD or Rejection. DISCARD, properly exerted, always leads to HONOR.

=--w--=DISCARD always affects your health, your mind, your money matters, your perception of the higher Soul vibrations, in accordance with the way and manner that you use the principle of DISCARD.

=--x--=In the first chapter of Genesis we read that on the FIFTH Day the great whales and creatures of the sea were created. These were the first creatures who

could be conscious of the Principle of DISCARD, when came the need to DISCARD their young; to DISCARD their enemies and those who should be detrimental to them. The greater their CONSCIOUS perception of the principle of DISCARD, the greater has been their HONOR among the animals, the more intelligence they have shown.

=--y--=In this life the Enumerator learns that some things must be discarded if he is to attain a position of HONOR. We DISCARD indulgences of some kinds to attain to honors in the physical or athletic fields; we DISCARD fiction and trashy ideas, oftentimes, if we would gain HONOR in scholarship; that is, on the Mind Plane; we DISCARD foolish expenditures if we would gain HONOR in money matters; we DISCARD wild theories if we would gain HONOR in the wisdom of the Psychic plane; we DISCARD slavery to any of the lower planes, if we would gain ascendancy on the Spirit Plane.

=LEO= [Symbol: Leo]= SUB-LUMA--Sign No. =5

[Illustration: Symbol: Leo]

=--a--=The Leo [Symbol: Leo] Sub-Luma influences those born from July 22nd to August 22nd inclusive, in all years. The best occupations for people born the dates of this Sub-Luma will be found along the following lines: Government and Politics; the Ministry; heads of large Manufacturing or Selling Corporations (Henry Ford is a Leo [Symbol: Leo] person). Leo [Symbol: Leo] people make good but sometimes over-indulgent parents; Students of the Occult; frequently Philosophers of an independent or radical type; Artists, Musicians, and often public lecturers and teachers.

=Marriage=

=--b--=The most satisfactory mating would be with a Sub-Luma of Aries [Symbol: Aries], Sagittarius [Symbol: Sagittarius], Gemini [Symbol: Gemini], Libra [Symbol: Libra], and sometimes Aquarius [Symbol: Aquarius].

=ASTRAL CLASSIFICATION=

=Principal Planet--the Sun= [Symbol: Sun]

=--c--=Its influence is to give vitality and fire to the whole nature, physically and mentally. It contributes toward dignity, self-reliance, and strength of will, giving ambition and a desire to achieve worthy results in action. You will wish to be at the head of affairs in your own particular sphere, and you will not find it congenial to occupy subordinate positions. You are able to organize and manage affairs and people, and you do not shrink from responsibility. You are kind-hearted and generous, admiring what is noble and scorning what is mean or base. The social and affectional side of your nature is well developed, and you can easily attract to yourself friends and companions. You like comfort, pleasure and luxury and you must not let desire rule you. You deal best with officers and authority, people in high places, bankers and philanthropists.

=--e--=The Sun [Symbol: Sun] is Ruler, and the Lord of the Heavens on these dates, and it stands as the symbol of vitality and activity of your mind, intellect, love and feeling. And by studying the great creation of the Solar System, in the Seven Principles and their application to the five planes (pages 68 to 77), you will be in a position where you can co-operate with your God, and create your own environment. There is a certain time in your life, when you seem lifted up on the wings of Fate, which is the truth. You are your own Fate, your own Destiny, as each soul is attracted to its appointed place, and each has its own mission to fulfill. You are given a time for pleasure, a time to rise, a time to fall, and a time to die. Which proves that astrology does exist in fact. All persons born under this Sign of the Zodiac are naturally endowed with strong determination, intuition and purpose, and if you will only persistently hold on and not give up, you are sure to be successful. You like change of scene and occupation, and will spend hours of your time in learning new things and working out new principles. Which is all good for you, when not carried to extremes. You are sympathetic, and tender-hearted, and often generous to a fault.

=--f--=You must avoid pride, and not allow yourself to become over-confident, though success will surely come by this influence in the Future, for this is a fortunate and more progressive portion of your life, and it gives you many opportunities to expand your inherited characteristics. With few exceptions, all persons born under the constellation of these planets have in their hearts, a pure and true love for mankind. And the motto that should hang in your room, is the Golden Rule, for you have it in your power to do many great and good things in this world; it has given you a natural tendency toward the beautiful and artistic, as some of the greatest scholars and students in the world come out of this sign. A Leo [Symbol: Leo] person will nearly always be found at the head of some great humane movement. You would become very successful in the study of Metaphysics or Occult science. As it would strengthen your will power, and enlighten your mind, and give you the knowledge and wisdom, which would enable you to reach out and grasp the so-called secret powers and forces. The Sun [Symbol: Sun], placed in the sign of Leo [Symbol: Leo] at your birth, promises much success in life, through your own personal magnetism and power to adapt yourself to circumstances. For a business or profession you would excel in acting, or in an occupation that ministers to the Joy and Pleasures of others. You were born on a fortunate date, and it is up to you, to make good.

=Relativity of Leo= [Symbol: Leo] =and Number 5=

=--g--=Leo [Symbol: Leo], the fifth Sub-Luma, indirectly relates to the 5 space, the Moral Luma. The sex instinct will destroy anyone as a Lion might, if allowed control. Yet it is the great Creative Force.

=Fifth House or Cycle, Leo= [Symbol: Leo] =Influence=

=--h--=Fifth House: Leo [Symbol: Leo] influence; the Spirit here focuses through the Sun [Symbol: Sun], the planet of Life, as the ruling planet of Leo [Symbol: Leo]. The Fifth House relates to children, speculation and the joys of life; love and marriage; your children and their success will be prominent in the Fifth House. Your own career will become more prominent also.

=--j--=The Fifth House is concerned with speculative affairs and all matters of enterprise and activity prompted by the desire of nature, and it therefore tends to waken the emotions in connection with love affairs, children, pleasure, generally, and even games of hazard, gambling or business enterprises. It is a good year to engage in investment or speculation, or enjoyment and merry-making of all sorts. It will give an opportunity to be more magnanimous and generous, to act kindly and to be more noble and high-spirited and will cause you to exert every possible effort to please. This will bring opportunities for love adventures, unions or lasting attachments, which will be helpful and fortunate and will cause you to obtain advancement through providential help. The placing of affection will create enmities, which will be attributed to a false friend or envious minds of some of the associates who will prove unfaithful and treacherous.

[Sidenote: THE PARENT LUMA]

=(The 6 Space)=

[Illustration: 6]

=--k--=Title, DIVINITY OF PARENTHOOD. These words have a value of 114. 1 and 1 and 4 make 6. The color is Flame, like that of the God Luma, or 1 Space. Here the Soul has taken the West course, in its progress from the 5 space, and enters Parenthood, a natural course for most of the young and normally healthy bodies. The Parent Luma color of Flame is made up of the Red of Life and the Yellow of Wisdom.

=--l--="The baby is a =mature= soul, a god, that has projected itself into this world in a small physical body. That Soul never began, it always was, with God. (Proverbs 8:22-31.) In gaining its experience, on this earth plane, the Soul proceeds at once to destroy that little body cell by cell, while building a larger and better body. That Soul came here to protect that body under those conditions. In a few months, the baby's body has all died cell by cell. And yet the baby has not died, but is still happy and healthy in the arms of its mother.

[Illustration: CHART OF THE LUMANUS]

=--m--="No one has noticed the death of the baby's body, yet all its friends have assisted in that death, cell by cell; the mother who rubs and bathes it and the nurse who exercises it. The baby itself destroys its own body, cell by cell, in its play, its struggles and its crying. So also the soul advances by destroying its body, despite the objections and groanings of that body. (2 Cor. 4:16 to 5:4.)

=--n--="Each stage of the baby's life is entered into with pain and trouble, most of which he is unconscious of entirely. So the Soul, the Lord of the Temple of our body, goes on cutting its curve as it has planned it, despite the sorrow and crying of the body (spaces 5 to 9 on the Chart of the Lumanus).

=--nn--=The letters under the 6 are F, O and X, the only formed WORD in the Table of Enumeration (the word FOX). The letters mean FIRST OMNIPOTENT CROSS, or mark. Man's first real imaging of the Father-Motherhood of the Divine Parent, God, is when the male and female natures of man are made into ONE, in bringing forth the child. It is man's nearest imitation of Creation, making something out of that which appears not. Parenthood thus brings forth our divinity and is at once a cross and an upliftment. The space 6, in the Chart of the Lumanus, begins the arm or line that will cross the vertical line already in place, making the true cross.

=--p--=Without that line that would be no cross, signifying the horizontal positions assumed by the body in parenthood, symbolizing the death in life.

=Personally=

=--q--=A conspicuous 6 in your name or birthdate means that you are likely to have a well poised mind, kindly in nature, much healing and nursing ability, and will probably be a fine type for a parent. Faults to be avoided are worry, criticism, gossip and slavery to the ideas of others or to their demands on your time and strength.

The Planet of 6 is Venus [Symbol: Venus]; the Sign of 6 is Virgo [Symbol: Virgo].

=--r--=The letter F in your name means that your soul is devoted to the advancement of your body; the letter O means that you will be likely to give much thought to athletics and physical strength, of yourself or loved ones; X in your name means that you will have a peculiar genius for making money from your use of the Physical body in some eccentric or odd manner.

=Positions of the Number 6=

=--s--6 as a Soul Path Number= indicates that you chose the pathway of labor and production in order to help other souls. 6 is the Number of Motherhood and means the bringing forth. It shows that you are likely to be a well balanced soul; just, straight and true. Your greatest desire is to be helpful, sympathetic and sociable, in your natural plane and among your own kind.

=--t--6 as a Personality Number= means that your life will naturally be filled with the demands of others for your help, because of your kindly personality and willingness to listen to the woes of your associates. Music and some of the arts will naturally appear in such a personality and cause you to be still more popular. Such a pursuit is to be recommended.

[Sidenote: SIXTH PRINCIPLE OF CREATION]

=--u--6 as a Predominant Name Number= shows a tendency to attract those who need help. The danger is that you will take on their worries too easily and too extensively. Be sure that you CAN help a person before you lead them on and on to become dependent on you. You are inclined to attract those especially who have gotten their own affairs into a mess and then brought them to you to "clean up," which you generally do, even at too great a cost to yourself.

=--v--6 as a Destiny Number= shows that you are to be a leader of a rather officious type. You can easily use this Destiny Force to become the head of an institution, especially along any line of healing, social or humanitarian lines; or even at the head of a great philosophy of religion or teaching. In more strictly business lines you will come to the notice of the public in such channels as insurance, large mortuary, undertaking or cemetery propositions, millinery, dressmaking or hotel management.

=--vv--Public Appearance Number 6.= This increases your appeal to women and especially to mothers.

It makes your personality appeal to children also. Considerable magnetism is seen here, very attractive to groups that you may appear before. Your public will also be impressed by your well balanced mind and keen mentality. The thing to avoid in your public work before large or small groups, is criticism. Do not be harsh with any other propositions of any kind. It is far better to simply ignore them. Keep busy holding up YOUR light and the darkness of the opposing ideas will be dissipated. "Resist not evil, but OVERCOME evil with good." (Rom. 12:21.)

=--w--Warning to Number 6.= Chief danger is from WORRY. Remember that the woes you worried so about last year are very nearly all forgotten now. Keep in mind that "today is the tomorrow that you worried so much about yesterday." A year from now you will laugh at the folly of the worry you enjoy so now. Learn to LIVE RIGHT NOW ONLY and NOT tomorrow or yesterday. If you are fairly well off at THIS MOMENT, not actually hurt or suffering, then LIVE this MOMENT only and get your mind OFF of the tomorrows and yesterdays. "Sufficient unto the day is the evil thereof."

=The Sixth Principle of Creation=

=--x--=The Sixth Principle of Creation is TRANSMUTATION.

TRANSMUTATION rightly exerted, leads to GLORY.

=--y--=TRANSMUTATION always applies to your health, your mind, your money matters, your perception of Soul, in so far as you are transmuting these and making something better of your life. As you go on to better things through using this Principle of TRANSMUTATION you do indeed come to GLORY, its natural result.

On the Sixth Day, in the Genesis account of Creation, the earth went through the Principle of TRANSMUTATION. It was transmuted from a chaos into a habitable thing; from the habitation of great and awful beasts to the habitation of man. And the GLORY of that TRANSMUTATION was Man.

=--z--=The Enumerator learns here that we go thru a TRANSMUTATION period all our lives. Our Souls transmute particles of earth through our mothers' bodies into our baby bodies; then we transmute our baby bodies into youth bodies; our youth bodies into mature bodies and come to the GLORY in each phase, by transmuting the clay into the living Temple of God during the whole time. Finally, realizing the completion of the problems that we came to solve, few or many, in a long life or a short one, we pass on to other parts of GLORY that we are ready for, having been through our periods of TRANSMUTATION.

=VIRGO= [Symbol: Virgo] =SUB-LUMA--Sign No. 6=

[Illustration: Symbol: Virgo]

=--a--=The Virgo [Symbol: Virgo] Sub-Luma influences those born from August 23rd to September 22nd inclusive, in all years. The best forms of expression for this Sub-Luma will be found along the lines of Music, Arts, and Literature, Detail work; Chemistry; Proofreading; Publishing; Heads of Schools in Arts or Music; Students of the Occult.

=Marriage=

=--b--=The most satisfactory mating would be with a Sub-Luma of Taurus [Symbol: Taurus], Capricorn [Symbol: Capricorn], Gemini [Symbol: Gemini], Cancer [Symbol: Cancer], Scorpio [Symbol: Scorpio] or Pisces [Symbol: Pisces].

=ASTRAL CLASSIFICATION=

=Principal Planet--Mercury= [Symbol: Mercury]

[Sidenote: VIRGO [Symbol: Virgo] SUB-LUMA]

=--c--=Mercury's [Symbol: Mercury] influence is over the brain and nerves, and it has more to do with the mind than with the senses. It gives you good mental ability, ingenuity and adaptability, fertility of resource and wit, and probably a good memory. You should be apt at speech and argument, plausible and of substantial fluency in conversation; but along with this there sometimes goes a degree of subtlety and secrecy, as well as reserve or retirement. Your whole nature will seldom be shown to the world, and there will be one side which you will never show even to your most intimate friends. Your mind is active but a little lacking in concentration and perseverance, and you are likely to occupy yourself with too many subjects, to change a little too rapidly, and to have too many irons in the fire. You can adapt yourself readily to the moods and opinions of people, and can see truth under quite opposite disguises.

=--d--=Mercury [Symbol: Mercury] presides over the mind and is known as the "convertible" planet. It is neither positive nor negative, but both. It is the planet of the Adept, being the planet of adaptation in the widest sense of the word. Mercury [Symbol: Mercury] is termed the "Winged Messenger of The Gods," and takes upon himself the vibration of the other planets. It is, in one word, the planet of reason. In every Horoscope, Mercury [Symbol: Mercury] will represent the Ego in physical manifestation, the actor, playing the part allotted to him during each separate earthly existence; and at the close of each life, Mercury [Symbol: Mercury] represents the knowledge gained, as memory, the cram of which is rendered a permanent possession of the Ego as wisdom.

=--e--=You deal best with teachers, speakers, college authorities, lawyers, servants and critics of art or music.

=Personal Classification=

=--f--=Born under this sign, you are naturally neat, accurate and discriminating, and this natural tendency is manifested in various phases of your character. Your self-assumed knowledge of what is fitting and proper makes you fond of arranging matrimonial alliances, amongst your friends and associates. You have a keen foresight, and you are quite positive and decisive and like to execute your own ideas. Vocations and professions best adapted for persons born on this date, according to the vibrations of the Planets, would be dealing with the Public, in the amusement line, or on the stage, as you should be gifted with a good flow of language and plenty of art and wit, which would make you a good entertainer; as a rule you should be of a fascinating personality, especially to those of the Opposite Sex, which will cause you to be reckless in your pursuit of pleasure and in gratifying your desires. Trifling affairs, of absolutely no consequence sometimes cause you deep distress.

=--g--=You being of a very sensitive nature, at times causes your feelings to be easily hurt, or perhaps it is truer to say that your vanity is easily wounded. You are always hopeful and strong, and recover quickly from disappointments, so that losses and disasters do not have very much effect on you. Some of our most powerful and talented orators and emotional actors, possessing the true genius of eloquence, who have acquired great tact and taste, in the use of language, were born on this date. You are rather whimsical, and see the humorous side of things. You have a keen sense of humor and see the fun in a thing, when others should not see it at all. You like the luxuries of life and like the best of everything. You cannot stand being poor, and will make every effort to better yourself, and can do an extraordinary amount of work; you are accurate and painstaking in all that you do. You are literary and fond of books.

=--h--=You are very much interested in the odd and anything in the occult and mystic or psychic fascinates you and makes you wish to devote time more than you are able to spend along this line. You would make a splendid reporter. Be cautious in all that you undertake during the month of May. You demand much of those you love, but are willing to give much in return. You can adapt yourself to the circumstances over which you have no control, yet you like the best to be had in any line of things. You adore personal freedom and it is very difficult for you to submit to the rule of anybody. When you are permitted to have your own way, you are peaceful and tolerant of the peculiarities of others. You are much given to making distinctions in the choice of words, are extremely critical and well-disposed.

=Relativity of Virgo= [Symbol: Virgo] =and Number 6=

=--j--=Virgo [Symbol: Virgo], the sixth Sub-Luma, indirectly relates to the 6 space, the Parent Luma, and no one is more motherly, critically loving and better balanced, usually than the Virgo [Symbol: Virgo] person.

[Sidenote: SIXTH HOUSE]

=Sixth House or Cycle--Virgo= [Symbol: Virgo] =Influence=

Age Next Birthday, 8-20-32-44-56-68-80-92

[Illustration: Symbol: Virgo]

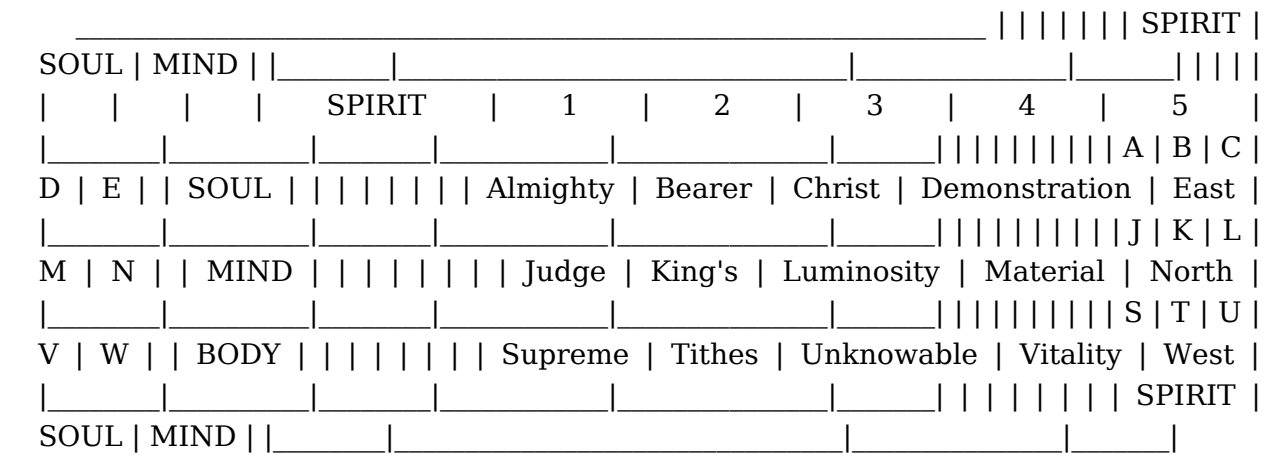

=--k--=Sixth House: Virgo [Symbol: Virgo] influence; Spirit focusing through Mercury [Symbol: Mercury], the planet of knowledge, memory and speedy message bearing. The Sixth House relates to the sadder things of life to a great extent, such as illness, disappointments, and worries.

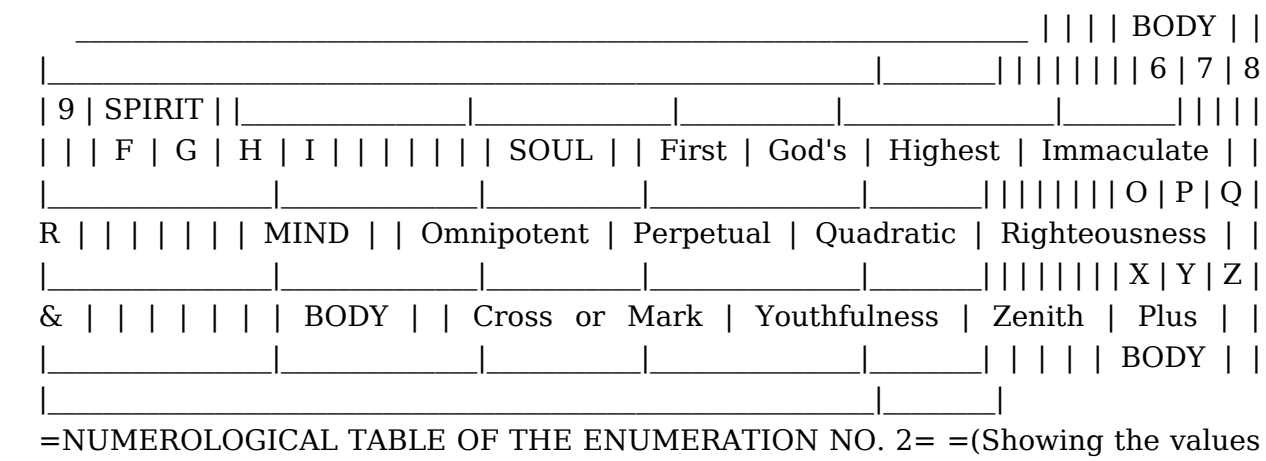

=--l--=You should be as cheerful as possible, see all the good you can. Will learn things and labor much with children, inferiors, servants, etc., and may have labor troubles, as well as domestic troubles to a great extent.

=--m--=The Sixth House relates to work and servants, and also to sickness and the condition of the physical body. It is considered an unfortunate house and tends to bring some sickness or indisposition of a serious nature, unless careful attention is paid to hygiene, and care should be taken to keep the health in good order, so that

the influences now operating have no power of impairing health. It is altogether not a fortunate period, so far as worldly progress goes, and you will be likely to make mistakes at this time, especially with regard to inferiors or those who are of a lower social standing which will cause annoyance, probably through some indiscretion. Over this, you will worry and give way to anxiety and so will be subject to nervous troubles. You will be somewhat suspicious or mistrustful and in consequence thereof, will suffer some discredit and may lose friends and reputation. Therefore, these planets warn you to have your eyes open and your ears on the alert.

[Sidenote: THE MYSTIC LUMA]

=(The 7 Space)=

[Illustration: 7]

=--n--=Title, SUBCONSCIOUS. This word has a value of 43. 4 and 3 are 7. The color of the 7 space is the deep Purple, the color of the Midnight Silences. When the 2, in most printed figures, is turned upside down, it makes a 7. When Creative Christ Consciousness reverses itself and appears in the human form, it is the inner soul or secret place of the Most High in man. This you will experience in your deep and secret attainment of the Inner Silences, when you have learned to "present your body

a LIVING sacrifice, HOLY and acceptable unto GOD," including your time, powers, means and possessions, the Tithes of the 2 demonstrated in the 7. The letters under the 7 are G, P and Y, meaning GOD'S PERPETUAL YOUTHFULNESS. When you attain much to the Secret Place, through Spiritual study in the Enumeration, and many Silences, "He shall renew thy YOUTH as the eagle's." The 7 space is the center of the cross of Life, the very depth of sacrifice, in the Spirit and Soul and Body, that they may be perpetually "preserved blameless unto the coming (into consciousness) of the Lord Jesus Christ." (2)

[Illustration: CHART OF THE LUMANUS]

=Personally=

=--nn--=A conspicuous 7 in your name or birthdate means that you will be likely to have a deep psychic instinct, a tendency to refinement, love of flowers and nature's beauties, that you love to be waited on and served, feeling a kind of hidden priesthood within you, and mysterious unexplored parts of your mind and nature. Faults to be avoided; laziness, poetic fancies without basis, small tyranny, peevishness. The planet of 7 is the Moon [Symbol: Moon] increasing; the sign of 7 is Libra [Symbol: Libra].

=--p--=The letter G in your name means a love of vague and mystic sensations in the body; the letter P in your name means constancy in all your desires, if not so much in your actions; Y means a self-centered attempt to keep yourself young at all hazards, sometimes remarkably successful.

=Positions of the Number 7=

=--q--7 as a Soul Path Number= shows that you chose a pathway of material completion for this earthlife. It is an incarnation in which you contemplate many of your past achievements in other incarnations. It is a cycle in which a great deal will be brought to you in the line of your wishes, if you learn and use the vibrations possible to you in the way of attractive forces within you.

=--r--7 as a Personality Number= tends to make you easy to wait upon, to have things brought to you; it makes you do better in the refined things of life, rather than the labor and more sordid things. You show a refined, nice type of personality and will be the center of attention, if you will use the refined ideas within you.

=--s--7 as a Predominant Name Number= shows that you will attract to yourself those who do things and who delight to serve. You will attract to yourself also those who are in power and will desire to make use of your natural wisdom as a counsellor or "power behind the throne," for themselves or their principles.

=--t--7 as a Destiny Number= shows that you will live rather a secluded life and should you enter any large business will not likely appear as the head of that business, yet be known on the inside as one who is an unseen force or power in that business, very useful but not very visible. One of the best ways to work out your real destiny is to take up one of the following lines, or something allied to them that may suit you. By thus doing what you love to do you will soon become known for your skill, after which your wisdom will have a chance to demonstrate itself. You are best fitted

along the lines of artshop management, florist, horticulturist, clergyman, organist or writer.

=--tt--7 as a Public Appearance Number.= This gives you a keen penetrative ability in dealing with persons or groups of persons. You can quickly discern the next thing coming, for you will sense their thoughts and know how to answer. If you will apply this to looking for the positive and agreeable thought-line, in the direction of the object you have with that person or group, you will win. Do NOT look for the resistance they may put up against the idea you are putting over, but seek the reason why THEY will benefit. Never mind how much you wish to sell the idea.

[Sidenote: SEVENTH PRINCIPLE OF CREATION]

=--u--Warning To Number 7.= Be careful of an exaggerated sensitiveness on your part. Even if you cannot fully express your kindly feelings, continue to be friendly and associate yourself with others. Avoid, at all cost, any tendency to retire to lonely places, or anything that would make you a hermit or a recluse. "The best study of mankind is man," so stay where you can HELP others by your fine sense of wisdom, or even the occult. You are naturally psychic and the world needs that talent, even if at times it does seem unappreciative of your display of it.

=The Seventh Principle of Creation=

=--v--=The Seventh Principle of Creation is SPIRITUALITY. SPIRITUALITY, properly exerted, leads to BLESSING.

=--w--=SPIRITUALITY applies to all phases of your health, your mind, your money matters and your perception of Soul, whether you know it or not and whether you are knowingly religious or not. The kindly thought, the gentle word, the benevolent action, all are the result of the Principle of SPIRITUALITY active in YOU, whether you seem to be giving the kindness or receiving it. Thru this Principle of SPIRITUALITY comes all the BLESSING that can be known to man or beast. Without this Principle of SPIRITUALITY life on earth would be unlivable.

=--x--=On the Seventh Day God rested from ALL His labor which He had made. This statement is in chapter 2 of Genesis. 2 makes a good 7 when turned upside down. After this Seventh Principle of SPIRITUALITY was brought into being, God never labored any more. It is the culmination of all the Seven Principles and no further labor is needed. It signifies the working of all the LAW which God did make and nothing further can be added. Therefore God does not need to attend to any further detail of Creation; for by this Seventh Principle Creation operates itself. (Gen. 2: 2. Heb. 4: 1 to 5. See also Romans 14:5, 6.)

=--y--=The Enumerator learns now that it is not his effort or his strength of mind or body that brings things to pass, but that it is the ability to meditate, to come to the Principle of SPIRITUALITY, that brings the BLESSING of success and attainment. We learn here too, "that which God doeth is perfect, no man can add thereto and no man can take therefrom." When we come to this Principle of SPIRITUALITY we have the BLESSING of that perfect peace which passeth all understanding.

=TABLE OF THE SEVEN PRINCIPLES, NO. 8=

[Illustration: Table of the Seven Principles, No. 8]

=--a--=Beginning in the center circle of this Table, we find the words "I AM THAT I AM," which were the words spoken to Moses from within the burning bush, AFTER he had put OFF his shoes and stood on holy ground. His shoes represented human and sense understanding. (Exodus 3:14.)

=--b--=This I AM is the center of all things, it is the I AM in YOU. You find that center when you have retreated from the sordid, material world, into fasting and meditation.

=--c--=In the next or second circle, proceeding upward or North, we find the signs Taurus [Symbol: Taurus] and Venus [Symbol: Venus].

=--d--=Taurus [Symbol: Taurus], the First Earth Sign, represents the Bull, a symbol of fertility and reproduction. Generation is earth's greatest Force and indicates the Power of nations. Taurus [Symbol: Taurus] is influenced by Venus [Symbol: Venus], the planet of Love, Art, Woman and the Home. Love is the final and greatest Force and produces the most Power of any influence known to man.

=--e--=In the 1 space on this Table we see that the Father-Mother God (1) is the Cause and Effect of all Force and all Power, in Heaven and in earth. Force is the First Principle of Creation and the first manifestation of God. All of the words in the space 1 represent positive or projective facts.

=--f--=In the 2 space, in the second circle from the center, we find the signs for Gemini [Symbol: Gemini], and for Mercury [Symbol: Mercury]. Both the sign Gemini [Symbol: Gemini] and the planet Mercury [Symbol: Mercury] represent changes and movement and the constant use of the second principle of Creation, called Choice. While it may be true that a rolling stone gathers no moss, still the Gemini [Symbol: Gemini] and the Mercury [Symbol: Mercury] types quite often gather the best of riches, an erudite Mind.

[Sidenote: PHYSICAL BODY]

=--g--=In religion the Creative Christ Consciousness (2) is represented as making the great Choice between the heavenly glory and the earthly servant-hood. In the garden of Gethsemane He is represented as making another great Choice between the Body mind fears and the fulfillment of His great mission, the conquering of Death (2). This is an example of the Law that like conquers like, the Lord Jesus Christ (2) conquering the last enemy, Death (2).

=--h--=At the base of the 3 space in the second circle we find the symbols for Cancer [Symbol: Cancer], the sign of the home, representing the breast of man; and the Moon [Symbol: Moon], the planet of fruitfulness, fertility, mentality and Spirituality. We are told that the Spirit manifests in the breast of man and through his mentality and here we have the combining of what has been a veiled symbolism to many people.

=--j--=The Spirit of God (3) was to set all things in Order, for he was to "guide you into all Truth." (John 14:26 and 16:13.) Through this Spirit of God (3) comes the ability to give forth the great Truth of the Enumeration and through that Spirit also your ability to receive that Truth. Hereby know ye the children of God.

=--k--=The 4 space has at its base, in the second circle, the symbols for Leo [Symbol: Leo], and the Sun [Symbol: Sun]. Leo [Symbol: Leo] represents the heart and the heart is the central and moving organ of the Physical Body (4). Leo [Symbol: Leo] is the sign of religion and is represented as the tribe of the Christ (5). The place of Leo [Symbol: Leo], being the fifth sign of the Zodiac, adds its value to the many significances pertaining to the Christ (5) also.

=--l--=The Physical Body (4) being a miniature universe, is made up of the elements of the universe. These elements blend and hold to their kind and to each other. This holding together is called Cohesion and is what gives the body its Strength. When we get fearful we are moving contrary to the law as touching upon Cohesion and we reduce our own Strength. The number 4 person is only strong when he is USING the law relating to Cohesion, by getting others to work WITH him.

=--m--=At the base of the 5 space we find the symbols for Virgo [Symbol: Virgo] and Mercury [Symbol: Mercury]. Virgo [Symbol: Virgo], one of the most motherly of signs, represents motherhood when called upon to make one of its greatest sacrifices in manifesting the law of Rejection or Discard. Mother must give up her boy or her girl, that they may go out into the world. It is a law, from the great whales in the sea to the eagle in her nest; from the oyster under the ocean to the king upon his throne. When that law of Discard or Rejection is not obeyed, both the discarder and the should-be-discarded are injured or hurt by the very presence of each other.

=--n--=This applies also to friends who are not helping you to advance. You should continue to find ways to help them, when possible, but must cut off all ways in which they are keeping you back. If this cutting off cannot be done without stopping your help to them, then you must stop your help. If you cannot help them in a way that they can be caused to compensate, then you are not the ONE who should help them. You will have to decide in your own mind as to whether YOU are being helped or improved in your character by your helping of them.

=--p--=There are thousands of cases of a mother still carrying and supporting and defending a big hulk of a man, because he is her son. Both of them would have been far happier if that mother had studied this law of Discard from his babyhood, making him do everything possible for himself, even if it did take more time and effort than to do it for him. You can also see little, hardworking sisters supporting big, overgrown, lazy brothers, who work on that sisters sympathies; or because that sister has promised some dying mother to always "look after poor, dear Percy."

=--q--=Stop and think. Are you CRIPPLING the one you think you are helping? Are you encouraging them to still use the crutches of your support, when they would be ever so much stronger if compelled to walk alone? It is just as wrong for you to over-gratify your faculty of benevolence, your desire to feel the superiority-complex of having others depend on you, as it is to over-gratify any other appetite or desire.

=--r--=The planet Mercury [Symbol: Mercury], signified in this 5 space, means changes. See to it that these changes are made in the right time and for the right purpose.

[Sidenote: TRANSMUTATION]

=--s--=The right operation of the law of Rejection or Discard will also bring about a new and better state of Morality, the Morality from within. Great men and women have not become so because they were total abstainers from things immoral, but because they controlled their emotions and subverted their personal feelings to the great object in hand, their life's mission. They being superior to the call of self, were neither moral nor immoral, but Unmoral, that is, they had perfect freedom, coupled with superb control, without supression. So they proved that ALL Honor must come from the Honor within, the Honor of the Spirit.

=--t--=Proceeding from the I AM center downward, in space 6, we find in the second circle the symbols for Libra [Symbol: Libra] and Venus [Symbol: Venus]. Libra [Symbol: Libra], the Scales in astrological understanding, is a fit symbol for Transmutation, the sixth Principle of Creation, in that through Transmutation things come to a balance. Strife ceases. The struggles are Transmuted to success; the house becomes a tranquil home; the idea through travail and long struggle to express, becomes the great ideal. Venus [Symbol: Venus], the planet of love and art, is the balance of life and the great transmuting force in the world.

=--u--=This struggle leading to tranquility; the long nights of doubt and planning leading to success, is typical of the Divinity of Parenthood (6) whether of brain children or of physical offspring. Transmutation always leads to Glory, when its agonies are over.

=--v--=In the second circle from the I AM center, in the 7 space, we find the symbols for Aries [Symbol: Aries], sign of the Head and the First Fire Sign; and of Mars [Symbol: Mars], planet of Force, Energy, Combat and Sex.

=--w--=Spirituality is perceived and expressed to the largest extent through the use of the head, in both the brain and the tongue. The force and energy of a highly Spiritual person are indicated by the planet Mars [Symbol: Mars] here also.

=--x--=It is noticeable that the highest spiritual thoughts are directly or indirectly connected with sex. All religions have had a basis of it, from the most ancient to the most modern. This has furnished the theme for many opposers of religion and unbelievers who would make a great evil of religion on the ground that it includes sex.

=--y--=To neutralize this it is useless to fight it. Resist not the so-called evil, but take the ground that Nothing is evil in the temple of the living God, "which Temple ye ARE." "Your BODY IS the Temple of the living God," and no part or function or appetite of that Temple is evil. Sex is a divine institution. So are water and fire. And either one of the three will destroy you if wrongly applied. Yet each of them promotes and causes life. It is the MISUSE of the functions of the body that destroys us, not the function as such. (See Paul's wonderful expositions of this truth in 1 Cor. 3:16 and 17;

6:19 and 20; 7:34 and 36. 2 Cor. 6:16.)

=--z--=After all it is the Subconscious (7) or Soul Mind in us that determines the direction of our progress to a large extent. When we are in right attunement to that Subconscious (7) we come to the Blessing of that perfect liberty, we find souls of like nature, we are no longer restrained or fearful of man made laws and conventions. We LIVE the life of perfect freedom, in perfect control without restraint or fear.

=Relativity=

=--a--=Taking this Table of the Seven Principles as a whole, we find that the first three spaces, 1, 2 and 3, are ABOVE their basic planetary influences. This symbolizes the fact that the Father-Mother God (1) the Creative Christ Consciousness (2) and the Spirit of God (3) all manifest in us SUPERIOR to the law, that they are the makers of law, that law is beneath them as only a form of expression. For this reason the Christ, knowing ALL law, could do things that were beyond any perception of law that men had, hence they called His works miracles.

=--b--=We see that Cohesion and Rejection, or Discard, are horizontal to the planetary influences symbolized by the signs in the second circle from the I AM center. This shows that when we have not deliberately known and become superior to the planetary influences in the planes of the Physical Body (4) and the plane of Morality (5) we will be moved by those planetary influences just as the animals are. The less we know of them, the more they move us, just as is true with any other natural force.

=--c--=Transmutation and Spirituality, the Divinity of Parenthood (6) and the Subconscious (7) have been put under the set of laws that come from the great Law.

[Sidenote: RELATIVITY ON THE CHART]

=--d--=These laws manifest through the great Law, as planetary influences, as environment signified by the planetary influences and by many other things not so easily understood.

=--e--=This Table also shows that the positive or right side, the giving side, of life is indicated by Force, Order, Rejection (Discard) and Spirituality. These are masculine traits, four in number, affecting the Physical Body (4) and the Soul (4) signified on the other side of the Table.

=--f--=On the negative or feminine side, the receiving side, we have Choice, Cohesion and Transmutation. In these two sides we see the eternal struggle between the male, positive, masculine and the female, negative, feminine. The Male (4) with his four positive qualities, desires the female (6) with her three negative qualities, thus clashing the feminine number four (the number of his qualities) with her masculine number three (the number of her qualities). To offset this, she doubles her qualities, through her intuitions and inner perceptions, especially during pregnancy or gestation. Doubling the 3 by having the power of her own triune being outside, she often contains another triune being, her child, inside, thus doubling the 3, making her the mystic value of the 6, the female (6).

=--g--=When the male (4) and the female (6) are united "they twain shall become ONE flesh," 4 and 6 make 10. 1 and 0 make 1.

=THE MYSTIC TRINITIES=

=--h--=Another mystic application of the trinity is seen in this Table, in combining the two bases of any one space with its apex or master space. For example:

=--j--=Our perception of the Father-Mother God (1) depends upon our perception of, and upon our having had experiences with, the Divinity of Parenthood (6) and the Subconscious (7). Force (the 1st principle) must base its usefulness, its foundation, upon Transmutation (6th principle) and upon Spirituality (7th principle). If these are not included the Force becomes destructive and destroys itself and its own usefulness.

=--k--=Creative Christ Consciousness (2) can only manifest to us on earth, through Morality (5) and that Morality (5) must manifest first in the Subconscious (7). A Morality (5) based upon fear, or man made laws, will never stand. (Romans 8). We also see that Choice (2nd principle) always includes some demonstration of Rejection or Discard (5th principle), and Spirituality (7th principle). A little study will show this even in the most material transactions.

=--l--=Spirit of God (3) demonstrates as life through the Physical Body (4) which life includes physical demonstration of love, leading to the Divinity of Parenthood (6). The 3 of the Spirit of God manifestation is duplicated in the 3 of the family, the father, mother and child. It is the Spirit of God (3) that causes the family to be, and Paul says that those who will "forbid to marry", will be those who have DEPARTED from the faith. (1 Tim. 4:3.)

=--m--=Order (3rd principle) is only practical where Cohesion (4th principle) and Transmutation (6th principle) have combined to make things hold together and to transform them from a chaotic state to an orderly state. Remember then, that you can have Order only where you have first established Cohesion and Transmutation in principle.

=--n--=If your life is discordant or inharmonious, look well to this. On the other hand Cohesion (4th principle) looks upward to Order (3rd principle) and over to Rejection or Discard (5th principle) for its basis. We gain those qualities that make for strength only if we have Order in our mind and can Discard in our heart. They must be INSIDE, and not the result of any command or fear thought from the outside. They must be LAW and not some man made laws.

=--p--=Physical Body (4) to be at its best, must study and submit to the Spirit of God (3) and Morality (5). This does not always means suppression, but may mean regulation, to bring about Order in time, place and companionship, that none shall be injured by your indulgences and that all shall be helped.

"Nothing is wrong that does not harm Your trusting fellow-man; Nothing is right that does not help And lift a human hand."

[Sidenote: RELATIVITY ON THE CHART]

=--q--=Morality (5) can manifest itself to our consciousness only through the right application of that inner Creative Christ Consciousness (2) through the ideas, motives and acts of the Physical Body (4). A Morality that depends upon someone's else opinion or commands, or upon ANY book or outside influence for its force, is not a Morality at all It is a mere regulation. He is truly strong who is strong from within, from motives of his very own.

=--r--=Conformably to this, we find that Rejection (Discard) the 5th principle must reveal itself to us through some Choice (2nd principle). To continue the principle of Rejection or Discard, we must have and maintain Cohesion (4th principle). We must stand by our Choice, we must stay together with those involved in that Choice and continue the Rejection or Discard of those who are thus put in opposition.

=--s--=The Divinity of Parenthood (6) is subject to the great law as revealed through the Father-Mother God (1) and the Spirit of God (3). Through this infinite combination man reaches his First Omnipotent Cross or Mark (the F, O and X of previous lessons). Man is here first brought into the real divinity of himself, by going outside of himself to find himself.

=--t--=Transmutation (6th principle) takes its strength and power also from the combination of Force (1st principle) and Order (3rd principle). We can only Transmute things around us by using both Force and Order. To use Force alone might make more confusion by its destructive power. We must proceed in an ORDERLY manner. Any new system, whether politics, art or personal reform, must have an orderly object and an orderly procedure toward that object, to be a success. "Let all things be done decently and in order." (1 Cor. 14:40.)

=--u--=Man is always a triune being (1 Thess. 5:23) and his Subconscious (7) or soul mind displays this. We see in the Table that Subconscious (7) looks upward toward the Father-Mother God (1) and the Creative Christ Consciousness (2). Subconscious (7) is dependent upon them. The Father-Mother God flows down through the Creative Christ Consciousness, manifesting in the STILL, SMALL voice. It requires the Silences, the meditations, to know that "THIS is my beloved Son, hear ye HIM." (Mark 9:7.) It is AFTER the transfiguration, the Transmutation, of your life, that you come into this close contact with the Beloved Son, the Creative Christ Consciousness (2) the second person in the Godhead, the second person in YOU, your own Soul.

=--v--=To realize the distinction between your Soul and your Physical Body, do not worship the one, nor despise the other; this is the great objective of your Soul in leading you to this study of the Enumeration.

=--w--=In the Creation principles as here displayed, we find that true Spirituality (7th principle) can only be demonstrated when we have exerted Force (1st principle) on SELF and made the great Choice (2nd principle) of that soul satisfying UPWARD pathway, the righteousness of our God given powers on all five planes, fearing none and being dominated by none. Using all and not abusing any.

=--ww--=We have put our spiritual "House in ORDER" as it were. We have gained Wisdom through that Order, giving us the Strength, through attaining COHESION, to DISCARD all things that would hold us back. Honor comes and we are then ready for the great TRANSMUTATION to Glory. SPIRITUALITY is ours, Blessing is attained.

[Sidenote: LIBRA [Symbol: Libra] SUB-LUMA]

=LIBRA= [Symbol: Libra] =SUB-LUMA--Sign No. 7=

[Illustration: Symbol: Libra]

=--a--=The Libra [Symbol: Libra] Sub-Luma influences those born from September 23rd to October 22nd inclusive, in any year. The best forms of expression will be along the lines of buying horses and cattle; buying and selling stocks and bonds of certain solid and secure types; managing large business and amusements, Hotels or Restaurants, or owning the same; dealing in Women's Wear; House Painting or Art; Publishing and Writing of Music and Poetry.

=--b--=The most satisfactory mating would be with a Gemini [Symbol: Gemini], Aquarius [Symbol: Aquarius], Taurus [Symbol: Taurus], Leo [Symbol: Leo], Aries [Symbol: Aries], or Sagittarius [Symbol: Sagittarius]

=ASTRAL CLASSIFICATION=

=Principal Planet--Venus= [Symbol: Venus]

=Venus= [Symbol: Venus] is the planet of love and beauty. It strengthens the affections and it will make the social side of your nature active and strong. You are warmhearted and companionable, fond of the society of friends and relatives, of a loving and peaceable disposition, and favoring all that is harmonious and refined. You are fond of ease and comfort, of pleasure and luxury, and you may need to exercise some restraint over this side of your nature. Venus [Symbol: Venus] generally gives those who are born under it good taste and a love of beauty, of fine surroundings, clothes, ornaments, decorations, and an appreciation of neatness and orderliness. You probably have the ability to develop the aesthetic side of your nature in the direction of singing, music, art, poetry, etc., if you care to do so. The influence of the planet can also be adapted to a business life, as it gives some financial ability and good luck. The disposition is usually cheerful, hopeful and good natured, and brings popularity and many friends.

Venus [Symbol: Venus] is the chief significator of love and marriage. It also has some influence over money matters and general prosperity, as well as giving a sense of beauty.

=--f--=Libra [Symbol: Libra] is the sign of the Scales, which makes you just. You should have a good future; you inherit brain power above the ordinary, and you will not be doing justice to yourself unless you exert your brain power to its fullest limit. "Concentrate" must be your watchword. You are a psychic collector of thought, having the ability to acquire the occult laws of nature. Your view point is broad and liberal, and your knowledge must be wide; try to know a little of everything, but concentrate on doing one thing well; you are very sympathetic, and people find it easy to confide in you; in fact, many people take advantage of your good nature, and impose on your time and patience. Soon you will learn to assert yourself, and guide your affairs into better channels for your own advancement. You are very modest and do not properly value the gifts nature has bestowed on you.

=--g--=You should strive for habits of order, even in small things, and should take to heart the truth that nothing is insignificant which promises the peace and pleasure of others; you should curb your desire for praise and appreciation, and never do a kind action for the credit to be derived from it. You are a strong lover, and you need love; you cannot go through life alone. You accept proven fact, but are quick to see any flimsiness in basic foundations. Sometimes you show much excitability, and in this condition you may make mistakes in judgment; you want to have your own way, and generally succeed in having it, people yield to you, through confidence in your integrity and judgment, and well they may.

=--h--=You are devotedly attached to your home and family, and never happy unless you are giving all your friends a good time; you are fond of society only insofar as you can give others pleasure; there is nothing self-seeking about you. You will have many disappointments in life, but always you will struggle gallantly against the adverse conditions, and truly one who never gives up the fight, may be said to win it. You are just and fair in your dealings; you are conscientious, true and careful in money matters. You have great adaptability and fit into many conditions; you are apt to be undecided and uncertain in your ways, expending much effort sometimes before you are quite certain just what it is that you are after. You are companionable, sociable and you suffer much because you cannot find things just as you wish. From your love of investigating new things, you sometimes neglect your best interests and special talents; you rush hither and thither in search of excitement or new fields to explore, and are frequently likened to the rolling stone which gathers no moss, but remember it gathers polish.

=--k--Seventh House:= Libra [Symbol: Libra] influence; Spirit focusing through Venus [Symbol: Venus], the planet of love and woman, art and beauty. The influence of this Seventh House chiefly extends to the separations, divorces and dissolving of partnerships, agreements, and marriages. The chief thing to do during these years is to be diplomatic and avoid disputes if it is possible. Some business management likely to appear.

=--l--=The Seventh House is chiefly concerned with marriage unions, partnerships, love affairs, law-suits, litigations and opponents. During this year you are likely to be brought in contact with others who will greatly influence, and bring an entire change into your life. You will find now that feelings and emotions have a very satisfactory outlet, for it will make attachments and engagements fruitful, and tend to bring all matters concerning the affections to a satisfactory issue. It is also good for finance and monetary prospects and will bring gain, pleasure and profit in many directions, and you will be wise to make the most out of this favorable period. You will now come into new and congenial surroundings, will make new friends and will gain in many ways through others. You will now come into very close contact with those to whom you will be drawn by sympathy and affection and prospects will look brighter and happier than they have for some time. The social side of the nature will now be very active. The mind will also be very susceptible of considerable cultivation, especially in connection with the more imaginative and idealistic subjects. Companionship, friendship, partnership, association and unions are the key notes at this period. But in a Horoscope having the Seventh House severely afflicted by malice at their birth, then all associations will now require great care with any relations, for there is a likelihood of getting into trouble or disagreement at this time. Great care would be necessary in dealing with those who have a share in the affections, and also with regard to all monetary interests.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= (=Showing the values and inner meanings of the English Alphabet)=

[Illustration: Chart of the Alphabet]

[Sidenote: THE TRADE LUMA]

=(The 8 Space)=

[Illustration: 8]

=--m--=Title, SUCCESS. This word has a value of 17. 1 and 7 are 8. The word God also has the same value (17-8) and many people make Success their God, especially the word as spelled $ucce$$. The color of the Trade Luma or 8 space is pale Yellow, the color of Wisdom. It requires much Wisdom in your talent, sometimes to make a real success of it. Wisdom is the right-useness (righteousness) of knowledge.

=--n--=The letters under 8 are H, Q and Z, meaning the HIGHEST QUADRATIC ZENITH. The highest double number within the 9 digits is 4 (2 times 4 make 8). 4 represents material things and when they are doubled unto us, we have, or think we have, Success.

[Illustration: CHART OF THE LUMANUS]

=Personally=

=--nn--=A conspicuous 8 in your name or birthdate means that you are likely to have some ability in public speaking or teaching. It gives you powers of leadership, success, and mental strength. Remember that all these things are influences, not fates, and that they in turn are more or less offset by other numbers and letters. Faults to be avoided are talking too much about self, headstrong will, stubbornness, and thoughtless moves.

=--p--=The planet of 8 is Saturn [Symbol: Saturn]. The sign of 8 is Scorpio [Symbol: Scorpio]. The letter H in your name has a tendency toward the Higher perception of your body's finest and most spiritual uses; Q in your name is the eccentric, the queer ideas manifested; Z in your name is the strength of body and mind that can be used to advance your earthly success.

=Positions of the Number 8=

=--q--8 as a Soul Path Number= shows that you have chosen a pathway to bring about justice, that one of your chief life aims will be to make justice, even sometimes in cases where it does not directly concern you. While doing this you also will feel at times the pangs of fear at the justice that may be waiting you as well. It will be a feeling that you too must meet a certain great Judge. This Judge may materialize in your life as an avenging reaction to something or someone you have helped to reform.

=--r--8 as a Personality Number= will probably help to put you into the front ranks of commerce, reform movements, leadership in finance or big business. Your Personality will be that of the Judge, the final arbiter, the ranking master of all in banking or commercial circles. Dignity is the strongest trait of your personality and you will win in proportion as you are able to impress people with your dignity without appearing uppish or aloof or too imposing.

=--s--8 as a Predominant Name Number= shows that you will naturally attract to yourself many who will have fine ideas about reform movement but without any executive ability to "put them over." This you will be expected to do and many of your friends will prove to be of little use to you because they desire to use you to further their own pet schemes.

=--t--8 as a Destiny Number= makes you well able to be a great executive, with a bent toward a powerful public personality that will land you among the leaders of the nation, if you use it and keep yourself above the petty things. For this reason you must spend time to complete your education if you possibly can, no matter what your age. Keep in mind and constantly exercise your powers as a leader, at first in whatever ways may appear around you, then reach on to greater things. Your natural Destiny is leadership.

=--tt--Public Appearance Number 8.= This gives you a strong power of speech and you should do your best to get into something of that order, if your other numbers do not show too adverse an influence.

You can begin in a small way, before small groups, watching for criticisms and comments and governing yourself accordingly. But do NOT desire mere flattery. The way to stop people flattering you is to make them tell you just WHY your work is good. Study the speaking ability of famous people and read important literature.

=--u--Warning to Number 8.= Do not talk too much. Keep your plans, your ambitions to yourself. It is by exposing your plans thru the desire for praise or approval that you dissipate your "steam" or energy to execute those plans. "Plan your work, then WORK your plan," but do not tell your plan.

[Sidenote: SEVEN PRINCIPLES--ANIMAL PLANE]

=The Application of the Seven Principles to the Animal Plane=

=--v--=FORCE, the First Principle, when applied to the ANIMAL PLANE of Life, results in the taking up of new exercises that you may wish to follow; it results in the use of your body in appearance or in muscle as a form of persuasion to get things done. This leads to POWER in what is called Animal Magnetism.

=--w--=CHOICE, the Second Principle, when applied to the ANIMAL PLANE of Life, results in the right selection of foods, clothes, house and sex. It gives the ability to select the right mate. This application leads to RICHES of a physical nature, the possession of property and goods in the line of the CHOICE that may be made.

=--x--=ORDER, the Third Principle, when applied to the ANIMAL PLANE, enables one to place the right action in the right time and place. It leads to the tactful

handling of the body and the faculties. It makes for nice foods, well served; for nice homes, well appointed; for a careful mate of real fitness to your life and environment. This application leads to WISDOM as to the right time, place and use of all physical things.

=--y--=COHESION, the Fourth Principle, when applied to the ANIMAL PLANE, helps to hold the home together; makes you attractive to business partners and associates; makes people want to work with you and for you. It leads to STRENGTH of your body and your physical collections of things and possessions. When you develop the COHESION in your ANIMAL PLANE you give the appearance of being well-built and well able to take care of yourself.

=--z--=DISCARD, the Fifth Principle, when applied to the ANIMAL PLANE, enables you to cast off undesirable foods, undesirable clothes and living quarters and even an undesirable person, though they may claim the ties of relationship. In fact the casting off of undesirable relatives is the hardest test of this Principle of DISCARD. This Principle is also much needed in changing one's life from an undesirable or low tendency to a higher one. DISCARD is a constant but little understood Principle in Life. It is the hardest to understand and to operate of any of them. Quite generally we do not know when we need it on the ANIMAL PLANE, because of our love of ease and our aversion to change. We feel, usually, that what has been good enough up to now, should be good enough further on. We come to HONOR when we know and use the Fifth Principle, DISCARD.

=--a--=TRANSMUTATION, the Sixth Principle, when applied to the ANIMAL PLANE, helps you to make the unlovely into the lovely. It transmutes food into muscle and brain; a house into a home; a woman into a wife or sweetheart; a man into a husband or lover. This application causes the ANIMAL PLANE part of the human life to arise toward the MIND PLANE, the next logical step. The right use of the Principle of TRANSMUTATION, without suppression, is the only answer to the sex question. Any right application of TRANSMUTATION leads to GLORY.

=--b--=SPIRITUALITY, the Seventh Principle, can be only indirectly applied to the ANIMAL PLANE through the MIND PLANE. This will be explained in the next lesson, after the Number 9 (page 94, paragraph g).

=SCORPIO= [Symbol: Scorpio] =SUB-LUMA--Sign No. 8=

=--c--=The Scorpio [Symbol: Scorpio] Sub-Luma influences those born from October 23rd to November 21st inclusive, in all years. The best forms of expression will be along the lines of Music, Surgery, Chemistry, Public Speaking, Public Official Work, Sailors and Seamen, Transportation Work, and Engraving. Also make good Superintendents. Usually an earnest, hardworking type of character.

=ASTRAL CLASSIFICATION=

=Principal Planet Mars= [Symbol: Mars]

=--e--=Mars [Symbol: Mars] is the planet of fire, energy and expansion. It gives you a disposition that is ardent, active, positive, impulsive and impetuous. You are a lover of freedom and independence, and cannot endure restraint, confinement or delay. You are generous and frank, an admirer of openness, bravery and courage, both physical and moral. You have much self-confidence, and are usually able to hold your own easily, being prompt in word and action. You need to beware of being too rash and headstrong, for you are rather inclined to be aggressive and self-willed; and you are likely to bring many troubles upon yourself through this. You have a good deal of pride, which is easily wounded, and you do not find it easy to remain cool and self-restrained under provocation. You are an active and energetic worker and can accomplish much in a short time, and you have it in you to become very practical and capable in the world if you exercise a little self-discipline.

[Sidenote: SCORPIO [Symbol: Scorpio] SUB-LUMA]

=--f--=Mars [Symbol: Mars] is the planet of fire, energy, impulse and action. Its position in the sign indicates the channel through which these qualities will flow. Mars [Symbol: Mars] is the principal planet for Scorpio [Symbol: Scorpio] Oct. 23 to Nov. 21, and for Aries [Symbol: Aries], Mar. 20 to April 19.

=Personal Classification=

=--h--=Scorpio [Symbol: Scorpio] is the eighth sign of the Zodiac, a fixed and watery sign, conferring on those born under its influence a psychic nature, and a love of the mystical. You are impulsive, irratic, extreme, independent, and very energetic. Exercise your energy to the utmost in the interest of higher use, and the world will be the better for your efforts. You have a high and noble character, and your word can always be depended upon. You must learn to look ahead with confidence, not fear; do not court trouble by anticipating it; it will be time enough to cross your bridge when you come to it. You are very affectionate, capable of giving much love, and you demand a great deal in return. You ought to succeed in business, but not in the regular channels, something a little out of the ordinary for you. The indications are that you will initiate something entirely new and original which will be the basis of your future success.

=--j--=You feel very deeply and love passionately; you give yourself too freely, and must conserve these energies more. You are intuitive, and should trust your impressions more. Your constitution is strong and can stand very severe and protracted strains before breaking up, having good generative force, which if conserved, protects you from ill health. Scorpio [Symbol: Scorpio] is a vital sign, and governs the excretory system. The influence of the stars, point to a long journey, which you will be called to take later on in life; it will be made necessary by your

position and business connections. You will not travel by water, and during this trip you will hear of the death of a near relative; you will meet with success and make many friends, one of whom will prove treacherous, and will not hesitate to slander you, trying to ruin your prosperity in business and love. Yet the ensuing year offers you a very fortunate period, and there will be many advantages to gain.

=--k--=You are attracted strongly to the opposite Sex, either in friendship or association, of some sort, or in marriage, and then you are very devoted to your selected partner, and make an ardent and enthusiastic lover, as you are eager and somewhat passionate in your attachments. Your marriage partner will probably be of a martial type, positive, active and rather masterful, and will be one who desires to hold the reins and rule the roost. Much depends upon your conditions, surroundings and environments, as to how you will enjoy and appreciate life, for you have acute perceptions and sense things in a peculiar manner, through your feelings. You are mediumistic and very often are impressed with feelings and thoughts that come from others, either on this or the other side of the grave. You must live purely, to be happy.

=Relativity of Scorpio= [Symbol: Scorpio] =and Number 8=

=--l--=Scorpio [Symbol: Scorpio], the eighth Sub-Luma, indirectly relates to the 8 space, the Trade Luma. There are but few persons that can defeat a Scorpio [Symbol: Scorpio] person in argument or excel them at their business. The turning of the Sex instincts of Scorpio [Symbol: Scorpio], the Loins, to business, nearly always creates a successful business person and a worthy occupant of the Trade Luma (8).

=Eighth House or Cycle--Scorpio= [Symbol: Scorpio] =Influence=

Age next birthday, 6-18-30-42-54-66-78-82-94.

[Illustration: Symbol: Scorpio]

=--m--=Eighth House: Scorpio [Symbol: Scorpio] influence; Spirit focusing through Mars [Symbol: Mars], planet of force, energy and combat; another house of sorrows, like the Sixth and the Twelfth. A strong tendency to get into strange places; likely to hear of the death of relatives and the loss of hopes and plans. A bad year to start any new business. Possible loss of friends by their turning against you, through errors of judgment on your part. Keep well within a limited circle of small activities and kindnesses.

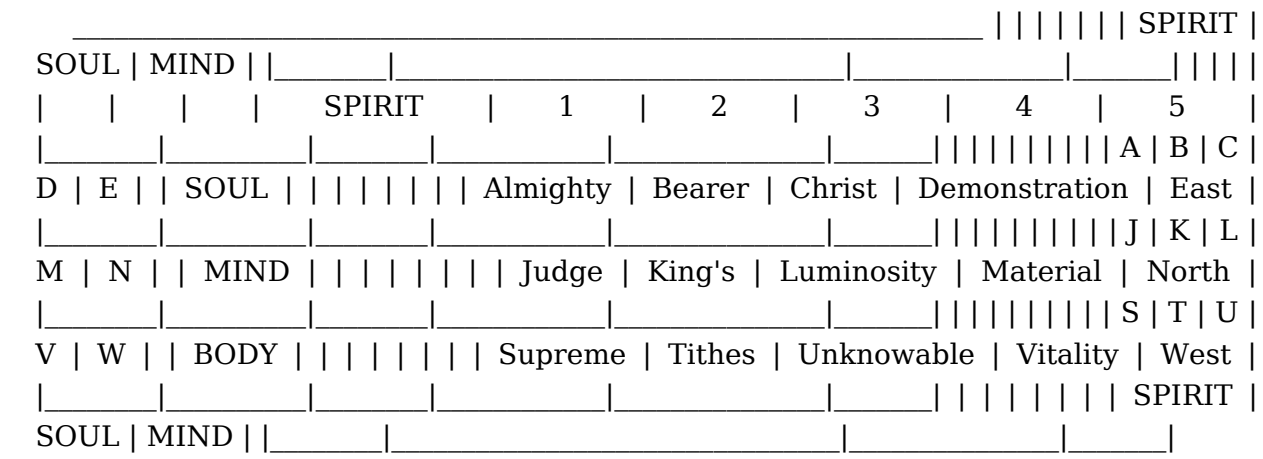

[Sidenote: EIGHTH HOUSE]

=--n--=The Eighth House, has a direct bearing upon death and all matters connected therewith, such as the goods of the dead, legacies, occupations connected with death. Now if it happens that evil aspects of the ponderous planets are coinciding with the passage through this house, it is most probable that deaths may occur in your social circle, or deaths will in some way effect you, or come in possession of goods left by death. The influence is a very pronounced and decided one, and its effect will be to awaken the latent possibilities of you at this time. You will be more determined and will become very firm in decisions and may through a fixity of purpose carry ambitions to a successful issue; but there is a dangerous side to the passage through this house. For with the feeling of firmness that accompany it

you will gain some knowledge of inherent power, and will arouse now any pride or dignity that may be latent in your nature. Feelings of jealousy will also be experienced which will incline to caustic utterances and sarcasm, when vexed or offended, for the gentler side of the nature will be overlaid by this apparently coarser vibration but it is the awakening of the real potency of the nature that will give rise to this change.

=--nn--=This period is also not so good for the health of some who become here susceptible to feverish and inflammatory conditions and also likely to act more from impulse than from careful thought. You cannot be too discreet with regard to the opposite sex, and all actions should be thought out beforehand, as the result of any rash conduct at this time will be likely to cause you much sorrow and trouble in the future. Hence you must avoid all rash and hasty tendencies and eschew disputes and quarrels, for the least excitement is apt to arouse the passional nature to its fullest expression. But much of course depends upon the Horoscope at birth as to what aspects are formed by direction for the year inquired of.

[Illustration: Chart of the Alphabet]

[Sidenote: THE LAW LUMA]

=(The 9 Space)=

[Illustration: 9]

=--q--=Title, LAW. This word has a value of 9. The word Love has the same value (18-9) and Love is the final and only Law that will prevail. The color of the Law Luma or 9 space is Blood Red, signifying the sacrifice that the Law demands in its violation. It also shows the living sacrifice that Love gladly gives in its demonstrations.

=--r--=The letters under the 9 are I, R and the sign &. These mean IMMACULATE RIGHTEOUSNESS PLUS. To know this station in soul advancement you must have passed the Law, you must have made the "perfect sacrifice" of self, time, means and possessions. It means to LIVE the Life.

=Personally=

=--s--=A conspicuous 9 in your name or birthdate means that you have the powers of brotherliness, kindness, eccentricity, music, art and power of command. Faults to be avoided are exclusiveness, a hermit nature, timidity and secret destructive habits.

[Illustration: CHART OF THE LUMANUS]

=--t--=The planet of 9 is Mars [Symbol: Mars]. The sign of 9 is Sagittarius [Symbol: Sagittarius]. The letter I in your name means a self-centered nature, but kindly. Likely to attract the help of others also. The letter R means rapidity and roaming with a tendency to raciness or occasional daring and recklessness. The sign & is nearly always used in business names of firms and means commerce in its commonest sense.

=Positions of the Number 9=

=--u--9 as a Soul Path Number= will show that you have chosen the "way of the triple crown," which may mean triple sorrows or it may mean triple portions of joy, according to the way you USE your numbers and your astrological conditions. It is probably your last incarnation on the earth plane, if you can so apply yourself unto wisdom that this indeed may be the last. Otherwise you may need to do it over.

=--v--9 as a Personality Number= gives you the aspiring type of mind, the zealot, the keen thinker ideals. As 9 is a disappearing yet ever present number when added to anything else (as 9 and 5 make 14, 1 and 4 make 5 and the 9 has vanished), so your own personality gives you certain peculiarities of seemingly vanishing from the minds of people and yet being called upon again and again for their needs. Your personality expresses brotherhood, generosity, artistic expressions of all kinds, writing, teachings and public speaking.

=--w--9 as a Predominant Name Number= shows that you will attract to yourself through impulsiveness, people who will offend and estrange your real friends and relatives. You are likely to show a disregard of others and others' opinions that will prove hurtful to yourself and that will attract to you persons that you will find very undesirable and hard to get rid of afterward. This place of the 9, in the Predominant Name Number, also inclines you strongly to attract dramatic and literary persons to your acquaintance, which will be mutually to your advantage and theirs.

=--x--9 as a Destiny Number= shows that you are inclined to a zig-zag pathway in life, filled with ups and downs. You are especially adapted to composition, creative

effort, sculpture, public speaking and the ministry. It is likely that your destiny will be to struggle along for a long while before being noticed and then get famous all at once after years of hard labor. Do not WAIT for this, for it only can come after the YEARS of labor.

=--xx--9 as a Public Appearance Number.= Here you have a strong influence of the eccentric. If you can keep from being bigoted about presenting your ideals you can influence a great many. You have strong, but in some ways peculiar ideas and methods. Try to keep your expressions within reason. Let your artistic nature express itself, but avoid exaggerations even in joking.

Keep the beauty of your ideas to the fore, but NOT too much of your own personal opinions.

[Sidenote: SEVEN PRINCIPLES--MIND PLANE]

=--y--Warning to Number 9.= Be careful of selfishness and sensual desires. You are, in your own passions, your own worst enemy. Be practical in your morals as well as your business. Others are fully as good as yourself and just as likely to be straight and honest, so avoid jealously, envy, covetousness and lust as you would the plague. Keep busy HELPING others and you will avoid much of the so-called evil in the world, especially in YOUR world.

=Application of the Seven Principles= =to the Mind Plane=

=--a--=FORCE, the First Principle, when applied to the MIND PLANE of Life, shows itself in the strong will, the stubborn Mind. It enables you to take up new habits of thought. This application causes others to listen to your opinions and even to seek those opinions. It will draw the opposite sex to you, where that person is of the intellectual type. Rightly exerted it leads to POWER among your friends and associates. This POWER will be limited only by your knowledge of the reactions that you will arouse through its use.

=--b--=CHOICE, the Second Principle, when applied to the MIND PLANE of Life, enables you to choose the best reading matter; the proper teachers for your education; the things you will accept in matters of opinion in religion, art, science or politics. This application gives you what is called good taste. It leads to RICHES of knowledge and intellect.

=--c--=ORDER, the Third Principle, when applied to the MIND PLANE of Life, makes you logical and direct. It gives you good concentration, because it keeps you in ORDER in your thoughts and brings you WISDOM in the minds of your friends. This application makes a channel into your own mind of all the best thoughts that have been or will be along the line to which you are applying yourself. ORDER attracts big minds to you, because you and your proposition seems logical to them. ORDER gives you better expressive WISDOM, as to time, place and conditions to present your ideas.

=--d--=COHESION, the Fourth Principle, when applied to the MIND PLANE of Life, makes you more continuous in your application to your beliefs and decisions. It gives you STRENGTH of mind and power to make others want to be in your good

graces, to do largely as you do. In fact, you may know fairly well how much of COHESION you are exerting on the Mind Plane by the ease with which you hold friendships and the manner in which you are referred to in matters of opinion. With this application strong you will find that you exert a good influence over many and become a tower of strength to a large number of friends.

=--e--=DISCARD, the Fifth Principle, when applied to the MIND PLANE of Life, helps you to set aside "every weight which doth so easily beset you." (Heb. 12:1). It enables you to refuse the opinions of others, if you wish to. This application makes you somewhat independent in mind and is often the chief Principle needed to put you up among the leaders in your group. When it is known that you can refuse opinions, in the right time and place, it is generally assumed that you are strong minded. The mediocre mass accepts all opinions and authority, but the outstanding person is the one who questions thoughts, who "proves all things and holds fast that which is good." (1 Thess. 5:21.) To DISCARD the low or the lesser, leads to HONOR.

=--f--=TRANSMUTATION, the Sixth Principle, when applied to the MIND PLANE, enables you to use your mind in higher lines and more intellectually than before. Your whole life becomes "transformed by the renewing of your mind." (Romans 12:1 and 2.) The TRANSMUTATION Principle applied to the Mind, brings GLORY in its right use to all the other faculties and thus the whole Life.

=--g--=SPIRITUALITY, the Seventh Principle, when applied to the MIND PLANE, causes you to look into the religious and the moral side of things. It makes you want to be sure as to the rightness of anything before agreeing with it. SPIRITUALITY naturally follows TRANSMUTATION. This application of the Principle of SPIRITUALITY must have its outlet in every life, whether it be in the line of religion, ethics or morals. You must not suppress entirely this part of your nature. Let all parts of your mind grow. Thus by applying SPIRITUALITY you will attain the inner BLESSING.

=ASTRAL CLASSIFICATION=

=Principal Planet Jupiter= [Symbol: Jupiter]

=--k--=Jupiter [Symbol: Jupiter] tends to give a hopeful, buoyant and cheerful disposition which should go far towards making you popular and gaining you many friends. You can gain social esteem and success and will be popular and generally liked. You are benevolent, generous and humane, and are always ready to help those who deserve it and to assist worthy causes. You have a regard for law, order, and propriety and for the rules and conventions of customs; you dislike incivility, awkwardness, or bad taste in opinions or conduct as much as you do ugliness or inharmony in your surroundings. You have a reverence for beauty both in outward form and in ideas; you like beautiful surroundings and comfort and elegance in all things. You have energy, enthusiasm, ardour and faithfulness. You have a natural respect for law and religion, and you take kindly to ritual, ceremonial, and etiquette, and are a little too apt to be bound by formalities. You have power to cultivate the higher faculties of the mind in the direction of law, religion, or philosophy, if you care to do so.

=--l--=Jupiter [Symbol: Jupiter] is a very favorable planet when well placed. It governs social and general prosperity, religion, law, benevolence and good will; and gives some appreciation of beauty, harmony, imagination, and ideality. Jupiter [Symbol: Jupiter] is the principal planet of Sagittarius [Symbol: Sagittarius] Nov. 22 to Dec. 20--and the day planet of Pisces [Symbol: Pisces], Feb. 20 to Mar. 20.

=--n--=According to the Planets of the Earth on this date, it endows you with an ingenuous, strictly honest nature; it renders your soul merciful and your heart affectionate and constant. The ancient Magi claims that all persons born on this date, under these planetary conditions will prove exceptionally good, or radically bad. Your mind is versatile and easy going, but quick to anger, yet quicker to quiet down. You are liberal and impartial in your opinions, but with a gift of rapid assimilation. Your aptitudes as well as your occupations, will be of two different kinds, interfering greatly with each other, and thus hindering your progress. You will have some long journeys, in connection with your position and business. During one of these trips you will hear of the death of a dear relative.

=--nn--=You should have good business judgment, and are rather saving with your money--perhaps too much so, at times. Learn to be a little more open-handed. You will be better liked, more popular even in your own home. Not that you stint them in anything--it is just that you never think of taking home any little "surprises." It is rare to find anyone born on this day, who lacks money; you are never completely out of it, though you may never get rich. You are artistic, and musical, and should excel as a performer, if you ever took up the study of music seriously. You are inclined to worry

a little too seriously. You are inclined also to get moody. You should learn that worry has never yet prevented anything bad from happening, but oft times throws an atmosphere around yourself that prevents you from believing anything worth while.

=--p--=This sign indicates that everything in life is a pretty even struggle between good and bad, and that every action brings in its wake a reaction, thus forcing you to be most cautious in your thoughts and undertakings. Jupiter [Symbol: Jupiter], which will be your guiding Planet for the ensuing year, endows you with high mental qualities, gives you a virtuous and honorable nature. You represent the Archer, whose aim is sure, and who seldom fails to hit the mark. Your business instincts, are remarkably sure and keen, but too close application to your work, is your besetting sin, so do not be so reckless with your health, but remember that there is a reckoning day and nature's books are justly kept. You are probably emotional, and long for passionate love, which you feel you could return fully if it were given you. You have a great idea of duty and honor, and are unflinching in devotion to them. You do not understand the opposite sex and their ways, which are a sealed book to you. Cultivate the gentler side of your nature, and you will be more popular.

=Relativity of Sagittarius= [Symbol: Sagittarius] =and Number 9=

[Sidenote: NINTH HOUSE]

=--q--=Sagittarius [Symbol: Sagittarius], the ninth Sub-Luma, indirectly relates to the 9 space, the Law Luma. The Sagittarian make the best and most just judges, counsellors and wise men of the nation. They are frequently well known for their expert knowledge of International Law.

=Ninth House or Cycle--Sagittarius= [Symbol: Sagittarius] =Influence=

[Illustration: Symbol: Sagittarius]

=--r--=Ninth House: Sagittarius influence; Spirit focusing through the planet Jupiter [Symbol: Jupiter], the planet of business, generosity and wisdom. This brings out the advantages of religion and deeper thought and philosophy. Shows that these years will bring occult tendencies to you and a desire to know more about the psychic; or will bring a tendency to reform and become religious. Good time for affection and fellowship. Affects the following years: 5th, 17th, 29th, 41st, 53rd, 77th, 89th.

=--s--=The Ninth House is the house of Philosophy, and hence of all that concern the scientific and religious attitude, and also the safety and success of long distant voyages; also all affairs that relate to kindred and relatives. The passage through this house will not fail to bring some improvement in your general affairs and bring about a favorable issue to all undertakings at hand with proper care. The vibrations now operating will cause you to take a more philosophical view of life, and will tend to look upon all things from a more hopeful standpoint than heretofore.

=--t--=A rather fortunate period is at hand which tends to improve your whole conditions, also causing the mind to take interest in all matters connected with either

the occult life, or philosophy and religion, and if the mind of you can aspire, you will gain knowledge wherein all things are known. By awakening the intellectual side of the nature you will be greatly benefited by the passage through this house. But when living more in the material and physical plane of life than the mental, it will give a deep interest in sports of all kinds, outdoor exercise, walking, driving, boating, gambling, etc.

Generally this influence will bring a rebellious spirit and a disregard for established law and order with a tendency to be indifferent and in consequence thereof may suffer through the aforesaid mentioned, not only in pocket or health, but also by scandal and loss of reputation.

[Illustration: Chart of the Lumanus]

_____ | | | | | | | SPIRIT | SOUL | MIND | |_____|_____|_____|

=--v--=It is the concealed circle or cipher, not at first noticeable on the Lumanus, containing the Eye of Aum and the 4, thus representing the concealed and hidden beginnings of life. The Una Luma is that nothing, which, when added to anything else will multiply it by ten (as the 1 beside the 0 makes 10). Thus the body or temple of Man (1) coming thru the Una Luma, or Nothingness, becomes the 10 or Man beside God.

[Illustration: CHART OF THE LUMANUS]

=--w--=The colors of the Una Luma are Blue in its upper half, for Spiritual Truth and Green in the lower half for earthly growth and gain. It is thus divided into an upper or Spiritual use and a lower or material use. The life force in the body may also be seen in a Spiritual way or in the grosser physical way, used for the Godly ideals or for the physical gratification.

=LOVE AND LAW=

=--x--=When the Una Luma circle is combined with the cross containing all the figures from 5 to 9, thus including all the symbols from the Eye of Aum to the 9, we have the symbol for Venus [Symbol: Venus], in astrology, the planet of Love, Art and Woman.

[Illustration: VENUS]

=--y--=Then all your world is balanced by the power of Love and all is well in your life. The Soul is at the top, at its best, and the world is secondary to the inner worship of the Most High.

=--z--=But sometimes we make the LAW first in our minds (the 9 space) and get it at the TOP of life (see Mars) so that the Soul is at the bottom and the Law at the top. This is seen in some religions and in marriages where force is used to continue the relationships.

[Illustration: MARS]

=--a--=In such cases we have the Cross on TOP of the mountain and have made our Calvary. It is the symbol of Mars [Symbol: Mars], the planet of Force, Combat, Energy and Sex. It is usually sex and selfishness that brings this about and the remedy is to make the deeper SOUL emotions FIRST in your life.

=Positions of the Naught 0=

=--b--=While the cipher or naught (0) cannot appear AS a final number in the Four Phases of Soul Path, Personality, Predominant or Destiny Numbers, it DOES appear IN those numbers sometimes, as in a Number made up of 37, which adds to 10, which adds to 1. Here we see the cipher in use and as it nearly always appears in the second addition of the Number wanted, as 37-10-1, it has a small influence in life. Therefore:

=--c--=0 IN a Soul Path Number shows that you intend to apply your earth life this time to the widest or most universal possible area. It shows a tendency to take in too much territory, sometimes, but it makes for fine ideals and aims.

=--d--=0 IN a Personality Number means that you will have a wide view, a broad mind, and some tendency to extended thought, although not always deep thought. It adds generosity to your personality and makes you more and more popular.

=--e--=0 IN a Predominant Name Number cannot occur.

=--f--=0 IN a Destiny Number shows that you will make your great mark in the world through your widespread and universal applications of ideas. These may be old ideas, but they will be in a new style or garb. You will have the chance to become famous through this tendency.

[Sidenote: APPLICATION--SEVEN PRINCIPLES]

=--ff--=0 IN a Public Appearance Number shows that it would be fairly easy for you to gather crowds or to select the managers who could get them for you.

=--g--=WARNING. Do not use ANY number to LEAN on. Do your stuff. Be yourself, regardless of how the numbers seem to fit or misfit your hopes and ideals. Keep your ideals anyway and go on with them, and you will find it possible to develop the numbers you DO like in your readings, above those you do not like.

=Application of the Seven Principles to the= =Monetary Plane=

=--h--=FORCE, the First Principle, when applied to the MONETARY PLANE, enables you to make a little money and have plenty of POWER. It makes you able to appear prosperous. Here you begin to know the chief law of prosperity, "To him that hath shall be given and from him that hath not shall be taken away even that which he hath." (Matt. 25:29.) You appear prosperous and prosperity follows you. You learn to spend with that certain manner that makes you appear to have plenty. You recognize the FORCE of money, but you are not a slave to it. You may know that you are developing the FORCE you need on the Monetary Plane, when people begin to seek your opinion on the wisdom of any purchase.

=--j--=CHOICE, the Second Principle, applied to the MONETARY PLANE, causes you to choose carefully how and where you will spend your money. This inclines you to RICHES in money matters. You learn here that it is not the saving of money that makes you rich but the wise SPENDING of money in the direction you are going, in the direction of your great objective; this will make you rich. To do this requires a good use of CHOICE, this Second Principle of Creation.

=--k--=ORDER, the Third Principle, applied to the MONETARY PLANE, tends to put all expenditures and receipts in ORDER. It makes good bookkeepers and accountants. Sometimes this application may enlarge caution and fear. ORDER may be carried too far, even on the Monetary Plane and cause one to be too exact and mercenary and too much bound to a plan. The right use of ORDER, however, in money matters, will lead to WISDOM in both spending and accounting money.

=--l--=COHESION, the Fourth Principle, applied to the MONETARY PLANE, would incline you to put all your money into one thing, to conserve your money, to invest it very securely. It would cause your money to readily attract more money. By this means you may know when you are really applying COHESION to your finances. It

always gives STRENGTH to your money matters to be known as a conservative, careful type of spender.

=--m--=DISCARD, the Fifth Principle, applied to the MONETARY PLANE, enables you to refuse yourself the present pleasure for the future good. It enables you to spend your money on the thing needed first and to DISCARD the thing you want for the thing you need. It leads to the HONOR type of mind in you for both spending and receiving, for you can even DISCARD the receipt of money when you think it is not right for you to have it. This is one of the difficult uses of the Principle of DISCARD, but frequently the shortest road to HONOR.

=--n--=TRANSMUTATION, the Sixth Principle, applied to the MONETARY PLANE, leads you to the benevolent and spiritual uses of your money. It will help you to find the inner blessing through the giving of your Tithes and offerings. TRANSMUTATION is peculiarly applicable to this phase of money matters, for the giving of the Tithe or Tenth of your income to a spiritual ministry for the advancement of Truth is directly productive of the deepest inner blessing. At the Head Office of the Enumeration we have some amazing testimonials of the sudden increases and other blessings that followed the giving of the Tithe. The blessing to the world largely comes from the fact that the Tithes sent in are used for the publication work of the Enumeration. Thus it is not only the giver who is blessed, but thousands of others. In this way money reaches GLORY.

=--o--=SPIRITUALITY, the Seventh Principle, applied to the MONETARY PLANE, gives you a new perception of money. It brings you a new idea of the great Source of all wealth, the Lord within you. It leads you to know that spiritual peace can also be caused by the possession of prosperity. It brings the BLESSING of money in a deeper sense.

=ASTRAL CLASSIFICATION=

=Principal Planet Saturn= [Symbol: Saturn]

=--r--=Saturn [Symbol: Saturn] tends to give you a disposition that is sober, serious and thoughtful. It is the planet that naturally rules old age, and its best influence is not usually seen until youth is passed. It gives you self-control, reserve and restraint, as well as some natural inclination to frugality, prudence and cautiousness. You should also gain from it strength of will and a patient, persevering disposition, with calmness, fortitude and serenity. You may at times be a little lacking in buoyancy and cheerfulness, and you do not unbend socially as easily as some persons can, or produce so much mirth, fun and jollity, although you can appreciate these when they come your way. You have a good deal of practical ability and can manage things and persons ably and economically. You are ambitious and can form far-reaching plans and schemes and spend a long time in carrying them out. The best lesson that Saturn [Symbol: Saturn] teaches is self-control, prudence, patience, chastity, thrift and the meditative mind, as well as to distinguish between real worth and superficial pretentiousness.

=--s--=Saturn [Symbol: Saturn] is considered an unfortunate planet owing to its power to limit and restrict, it therefore has a binding and restraining influence. It is the bridge between the emotions and the mind and governs them until self-control is secured.

=--u--=Persons born under this sign mainly belong to the commercial world, in any vocation or profession mingling or dealing with the public, as they wield a controlling influence over others. Many fine writers, actresses, actors and orators were born on this date. Saturn [Symbol: Saturn] influences in this sign are very hard to overcome, as it governs the reflective faculties and produces close reasoners, and persons born under its rays usually have a steady, hard pull to gain success. You are an earnest student of human nature, and are not easily deceived by outside appearances. You will spend money freely for personal gratification, but in all outlays you have a keen eye for bargains; in whatever line of work you are engaged, you are determined to succeed. You are controlled by your emotions and influenced by your appetite, and dominated by a strong animal nature, which makes you slow to anger, but like the symbol of your sign, you are furious when aroused.

[Sidenote: TENTH HOUSE]

=--v--=Your life is pretty certain to be a continual fight against worldly tendencies unless you choose to patch up a truce with them, and let them have the rule and sway, which you are not always willing to do. You have a good deal of self-control, but are apt to fly into unreasonable tempers at times. Tuesdays and Saturdays should be good days for you to begin any important undertakings. You are inclined to be delicate and should take good care of your health, particularly your lungs, which are inclined to be weak. Live out of doors as much as possible and practice deep breathing exercises. You are rather optimistic, and inclined to look on the bright

diverting side of things. You are of a sociable nature and naturally crave company. You are always at your best under these conditions. Hence, you should not live in the country, which is not suited to your temperament. You are fond of intellectual pursuits and studies, but remember, that love and duty are higher human attributes than intellect, and that these are the most important in the long run. You have great natural abilities and powers, which if your health permits, and you determine to exercise, should bring you into prominence. You have great determination. You will be disappointed in love, when young, but later in life you will regain faith in human nature, and will marry happily beyond your expectations.

=--w--=During the day, you are bright and active, but restless at night; this is more noticeable while the moon is waning. Then your inclinations leads you to find diversion and excitement in different forms; you always insist upon being treated with respect, and the surest way to win your esteem, is to pay court to your intelligence.

Relates to honors and dignities that may come to you during these years, but are likely to be more of honors than money or profit to you. These will be honors that will be according to the education and the preparation that you have made, or how near ready you are, in other words, for these honors. May get news of your mother, or, if she is passed on, may get word from her on the other side. Affects the following years: 4th, 16th, 28th, 40th, 52nd, 64th, 76th, 88th.

=--z--=The Tenth House being the most elevated part of the heavens, is the house of honor, reputation, profession and worldly position. Therefore, it certainly will bring out all the moral tendencies, for this house has much to do with an elevation to a better position in life, always giving advantages for progress, and makes you endeavor to improve surroundings, and thus making this year a good time of raising yourself into a higher phase of efficiency and service. All matters of a business nature will now come to the fore, and everything connected with work in which you are interested will tend to become prominent in this year, so that many advantages may be gained at this time. It also has something to do with the domestic arrangements, affecting the maternal side of the home and bringing much activity therein, either on account of a possible marriage or family mourning.

=--a--=You will now be more ambitious than ever and if progressive enough to take full advantage of this period or, according to inherited ability, to fully respond to this new beneficial influence, you are sure to gain advancement and rise to a better position than before. You will become more industrious and persevering and, with endurance and tact, may now make great headway. If you wish to improve your conditions, now is the time. Your stars will assist you to obtain a footing which will make the whole of the future.

[Illustration: Chart of the Lumanus]

_____ | | | | | | | SPIRIT | SOUL | MIND | |_____|_____|_____|_____|_____| | | | | | | |

=--d--=This leads to the question as to when the 11 should be reduced to its sum of 2 and when it should not be. When you are dealing with a very spiritual subject or person, in whom the 11 is evident by the full addition of name or birthdate or of a word, THEN you may leave the 11 and call it a master indication.

=--e--=For example, the word Jesus has a value of 11 and should be left that way, that is, as 11. So with the words Lord Jesus Christ, together, make 11, as well as the words Creative Christ Consciousness, making 11.

=--f--=In all these cases to get their value they may be left as 11. But to prove the position of the Christ as the Son of God, in the SECOND personality in the God Head, any of the above titles may then be reduced to their sum, which is 2.

=--g--=Unless you know a person to be a master or very highly developed in a spiritual way, you are usually safe in reducing the 11 to 2, for that type of person has either attained the heights that make him or her very obviously a master, or else has reduced the splendid 11 to its digit 2, in his life and actions and is consequently a common or mediocre type, quite frequently. All indications point at least to a secondary position in life for a number 2 person, though they may possibly get to the position of chief attorney, chief adjuster, ambassador, or become a great minister for some special thing or some great country or people. This they would do by working upward through their obstacles and restrictions to the top of the SECOND place, the idealized number 2. The 11 disciples watched Jesus (11) ascend. His life had been SECOND in the minds of His generation, but after He ascended to become SECOND on the throne with the Father-Mother God (1) He became FIRST on earth.

=--h--=Still you should keep in mind that all these things are INFLUENCES only, not fates, and that other numbers may be strong enough to offset the 2 in your case.

=POSITIONS OF THE NUMBER 11=

=(See also the Number 2, Lesson 2)=

=--j--=In cases where you feel reasonably sure, from observation of the life and of your other numbers and indications of astral and other characteristics, that the person really IS living the life of the 11, a master life, then you may use the following definitions of positions to apply. Remember, that "by their fruits shall ye know them." (Matt. 7:16.)

=--k--11 as a Soul Path Number--=This would indicate that you chose a path of deep idealism in the lines of religion and philosophy. You desire to conquer the body and its passions and may make the mistake of being too aesthetic. It will be well for you to avoid the total suppression of your nature as you may get a wrong impression that total suppression means a conquering, when it may mean a killing out of fine qualities in you. Let your MODERATION be known to all men, not too much nor too little. (Phil. 4:5.)

=--l--11 as a Personality Number--=Here we see that you will need to do whatever your Soul has mapped out, in a masterly way. Nothing short of the finished way of going about your life work will ever please you. See to it that you do each task

thoroughly, even when it is a small one. If you would have the bigger work your mastery deserves, do the little work so well it will fade out of the picture. Remember that when the 11 is reduced it makes a 2, who easily becomes the idle dreamer, the sychophant. While 11 has a high vibration and indicates the master mind, the 2 can be either high or low in its vibrations, can be either a master or a slave.

=--m--11 as a Predominant Name Number--=Here the 11 means that you are likely to attract to yourself those who are masters in their line. It shows that it will be easy for you to attract very spiritual people around you; that you will readily understand the depth of their wisdom and be able in a fine way to imitate it. You also make an excellent head for a campaign of lectures, being very useful in assembling the public for the finer type of spiritual teacher and lecturer.

[Sidenote: SEVEN PRINCIPLES--PSYCHIC PLANE]

=--n--11 as a Destiny Number--=This shows that the great objective of your soul in coming to this earth plane was to establish some new or deeper form of ethics or religion. You are marking a soul path through the universe that will be noted on earth for a great reform movement in which you will not appear very much yourself. Your great work will probably be carried out by some great speakers who will put it before the people. In this line be very careful also that you do not lose all the monetary reward that should be yours. You will need to make some very careful arrangements and find the types of people to help you who will work with you in the ideal side of the idea, rather than for the monetary rewards alone.

=--nn--11 as a Public Appearance Number--=This shows that you will best appeal to your public from the standpoint of the mysterious and the psychic. You should draw them to you from a religious standpoint from what they do NOT know about you, but from what they think concerning you.

=--p--=Your writings are likely to have a more far reaching effect than your speech. This place of the 11 also shows that you will attract great ideas and minds from the other planes out beyond this and that you will therefore need to be cautious that your work shall not be destroyed through ridicule before it is strong enough to stand alone.

=--q--Warning--=The mere fact that you have an 11 in your name or birthdate does not make you a master, nor give you anything to get superior over. You must pick UP that 11, keep it from descending into a 2 and go ON to your success. Having the qualities of a master does you no good till you USE them. It is what you DO with what you know that makes you what you ARE.

=Application of the Seven Principles to the= =Psychic Plane=

=--b--=FORCE, the First Principle, applied to the PSYCHIC PLANE, inclines you to project the Soul out beyond the body in what are sometimes called Astral journeys. It also enables you to cause other people to do things when the desire of your Soul is in harmony with the commanding ability of your sub-conscious mind. This requires the application of FORCE to your Psychic nature and leads to POWER with others. It was this application of FORCE that the Christ used in driving the money-changers from

the Temple. (John 2, 14; 16.) It led them to fear His POWER. If you will let your angry thoughts work themselves out in imaginary conversation when you are alone, you can direct those thoughts to the person at whom you are angry, and the FORCE will nearly always have the effect of making them come around to your way of thinking, if you KNOW just what you DO want them to DO.

=--c--=CHOICE, the Second Principle applied to the PSYCHIC PLANE, will bring the companionship of other Souls to you in the silent hours. It will help you to have the right kind of people around you. You will attract those you can love by making a CHOICE of the kind you want, while you are in the quiet times of your meditations. You can make a CHOICE of the things you want, you can acquire RICHES if you only will devote your sub-conscious or soul mind to what you WANT, instead of worrying as to why you do not attain.

=--d--=ORDER, the Third Principle, applied to the PSYCHIC PLANE, will help you have the right time and the right place for your meditations and for your other Psychic labors and efforts. You will avoid "casting your pearls before swine," (Matt. 7; 6) because you will tell your deeper experiences and emotions only in the proper ORDER, that is, to those who will understand. You will thus use WISDOM in the gaining of your psychic experiences and in their telling.

=--e--=COHESION, the Fourth Principal, applied to the PSYCHIC PLANE, helps you to hold on and be firm in your convictions and not to be "turned about by every wind of doctrine," (Eph. 4:14.) It helps you to know what you know and be firm about it. If you have followed the instructions in the preceding paragraph on Order, you will know by now the sweet peacefulness that comes after a firm decision to stay by one thing. Here also you gain STRENGTH in the application of COHESION for you attract around you others who will have experienced things of the higher nature like yourself.

=--f--=DISCARD, the Fifth Principle, applied to the PSYCHIC PLANE, gives you the ability to "try the spirits, whether they are of God," (1 John 4:1.) It gives you the gift of "discerning spirits," oftentimes to a great degree. (1 Cor. 12:10.) You may know that you are exercising DISCARD on the Psychic Plane when your sleep is untroubled, yet pervaded by a sense of closeness of the Lord in your Soul; when you seem able to send gloomy thoughts away at will. Then you have DISCARDED the undesirable on the Psychic Plane. You have come over into the sunshine and away from the shadows.

[Sidenote: PSYCHIC PLANE]

=--g--=TRANSMUTATION, the Sixth Principle, applied to the PSYCHIC PLANE, leads you to see the beautiful beyond. Sometimes this develops so far that you cannot express it. Then you learn to apply the other principles previous to this one, from the force of being misunderstood. When you make this application you voluntarily shut yourself out from much of the world, you cease to care for many of the common things you once loved. This is the true and deliberate conversion, the real conversion, for it does not depend on the emotions of some great preacher or evangelist, but takes place silently, quietly, but quickly within yourself, when you apply TRANSMUTATION to your Psychic nature and partake of the GLORY that is yours.

=--h--=Now you come to the first of the REAL BLESSINGS, the BLESSING that comes from the application of SPIRITUALITY to THE PSYCHIC PLANE.

=--j--=SPIRITUALITY, the Seventh Principle, applied to the PSYCHIC PLANE, leads you into a dream state of blissful contemplation. It is a state to be attained only after you have applied all seven of the Principles to all four of the Planes up to this point. Now you begin to see the plan of all things, now your life has advanced till you are almost beyond the earthly. You may even be called "super-human" by some from your powers of discernment. Your observation will be amazing, your memory prodigious.

=--k--=The chief way to attain this is not only thru meditations and many ventures into the Silences; it is also by the way of service to others who are ready to advance a step to where YOU are. You must be a faithful teacher to THAT one, to go on yourself, IT IS THE TEST. You must be aloof only to those who would oppose or spoil you. You must be HUMBLE to the seeker. You must be humble WITHIN, yet bold without.

=AQUARIUS= [Symbol: Aquarius] =SUB-LUMA=

=Sign No. 11=

[Illustration: Symbol: Aquarius]

=--l--=The Aquarius [Symbol: Aquarius] Sub-Luma influences those born from Jan. 20 to Feb. 19 inclusive, in any year. The best forms of expression will be along the lines of Electricians; Inventors; Cooks; Caterers; Literary Arts; Vocal Musicians; Art; Aviation; Automobiles; Nurses for nervous and insane people; general Healing and sometimes Surgery.

=Marriage=

=--m--=The most satisfactory mating would be in one of the Sub-Lumas of Gemini [Symbol: Gemini], Libra [Symbol: Libra], Aries [Symbol: Aries], Leo [Symbol: Leo], or Sagittarius [Symbol: Sagittarius].

=ASTRAL CLASSIFICATION=

=Principal Planets Saturn= [Symbol: Saturn] =and Uranus= [Symbol: Uranus]

=--n--=Saturn [Symbol: Saturn] tends to give you a disposition that is sober, serious, and thoughtful. It is the planet that naturally rules old age, and its best influence is not usually seen until youth is passed. It gives you self-control, reserve and restraint, as well as some natural inclination to frugality, prudence and cautiousness. You should also gain from it strength of will and a patient, persevering disposition, with calmness, fortitude and serenity. You may at times be a little lacking in buoyancy and cheerfulness, and you do not unbend socially so easily as some persons can, or produce so much mirth, fun and jollity, although you can appreciate these when they come your way. You have a good deal of practical ability and can manage things and persons ably and economically. You are ambitious and can form far-reaching plans and schemes and spend a long time in carrying them out. The best lesson that Saturn [Symbol: Saturn] teaches is self-control, prudence, patience,

chastity, thrift and the meditative mind, as well as to distinguish between real worth and superficial pretentiousness.

Saturn [Symbol: Saturn] is considered an unfortunate planet owing to its power to limit and restrict, it therefore has a binding and restraining influence. It is the bridge between the emotions and the mind and governs them until self-control is secured.

Uranus [Symbol: Uranus] has been called the eccentric planet. Its influence is chiefly seen in new inventions and electrical contrivances. You have more ability along these lines, no doubt, than you know about. This planet causes you to love the mystic and the occult. It leads you to great depths of thought and sometimes to sophistries and arguments that depend entirely on cleverness for their establishment.

[Sidenote: AQUARIUS [Symbol: Aquarius] SUB-LUMA]

=--nn--=Uranus [Symbol: Uranus] is rather an unsociable influence. It is likely to make you somewhat of a hermit or recluse, unless you offset its influences with something more practical and human. It is the planet of aloofness and seclusion oftentimes.

=Personal Classification=

Preferable Jewel Turquoise and Sapphire Colors Best to use and wear Blue and Salmon Pink Most Advantageous Day Saturday Biblical Belongs to the Tribe of Naphtali Bible References Gen. 49:22 to 26, inc. Deut. 33:23.

=--q--=Those born on these dates, come under the sign of Aquarius [Symbol: Aquarius]. You are cool, cautious, in some degree, active, restless. Generally truthful, though you lack frankness. You have a great many difficulties to encounter in life, but rise triumphant above all of them. You have strong religious tendencies at times, though the practical affairs of life make them recede into the background of your mind and thoughts. You are inclined to be reckless, and throw away good opportunities, which are offered to you, simply because of this. You like excitement and constant "go" and dislike more than anything else to sit down and fold your hands and do nothing. Then you complain to others about your bad luck, when the fault is really within yourself to a great extent. You waste your energies, instead of conserving them and using them for a definite purpose. You must learn the truth of the saying, "To him that hath, shall be given; and from him that hath not, shall be taken even that which he hath." This is particularly true in your case. You have great possibilities, make use of them.

=--r--=You have a sort of piquant good-nature, which makes it the easiest matter in the world for you to make voluminous promises, and still easier matter to break them, which you do with the most charming naivete, which might be annoying if anyone knowing you put much confidence in your word. You do not do this through any base motive. Your shortdoings and peccadillos do not wear somber hues, at least not often, but you can be very crooked and are apt to be tricky, though not wishing for a moment to do anyone any harm. But you are almost universally liked. You are very generous, by spells. You are frequently original in ideas, and you have organizing ability.

=Relativity of Aquarius= [Symbol: Aquarius] =and Number 11=

=--s--=As the number 11 often indicates the master, so the sign of Aquarius [Symbol: Aquarius], among the signs indicates the teacher, the master, the "one who giveth goodly words," (Gen. 49:21.) As the 1 and 1 of the 11 makes 2, so the often dual nature of the Aquarian shows itself in a total inability to get along with his own family, while seemingly remaining a great favorite with a more or less extended group of the public.

These years are related to wealth, friends, unexpected outcomes, losses sometimes through misplaced friendships, unexpected happenings to children, younger brothers, and those younger persons that may be directly connected with you. Affects the following years: 3rd, 15th, 27th, 39th, 51st, 63rd, 75th, 87th, 99th.

[Sidenote: AQUARIUS [Symbol: Aquarius] SUB-LUMA]

=--u--=The Eleventh House is concerned with friendship, friends, hope, trust, expectance or desire. Therefore, in passing through this house, such matters will be brought forward prominently. Fresh experiences in connection with friends and acquaintances, and some new friendships will be formed that will play a very important part in your life's history. Hopes, wishes and desires will now become much stronger and you will be inclined to acquire or deal in matters of higher thought subjects. This will cause you to take deeper interest in all intellectual pursuits. You will now join groups or persons or associations, of some kind, and will form attachments that will be idealistic in nature or of a mental character rather than in any way emotional or sensual. You will be much inclined towards all things of reform and will investigate those things which are connected with aspirations that are mental or spiritual rather than physical or material. Its natural tendency is to lift you up towards good fortune, prosperity, happiness and pleasures by friends and colleagues, and benefits by them. The more hope you can cultivate, the more successful you will become. You will now get on well with elderly persons and will gain help and good counsel from them.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= =(Showing the values and inner meanings of the English Alphabet)=

[Illustration: Chart of the Alphabet]

[Sidenote: THE NUMBER 12]

=--v--=12 is also a number of great power, especially in the lines of rulership and authority. The word Dominion has a value of 12.

=--w--=It is seen that the two figures used in making the 12, that is the 1 and the 2, signify the Father-Mother God (1) and the Creative Christ Consciousness (2). In this is seen the dominion (12-3) from a spiritual standpoint.

=--x--=When 12 is reduced it makes a 3. 3 is the power of expression. The words revealing and expounding come to 3. As a general rule 12 should be reduced to its digit 3, unless you wish to work out the spiritual value of the 12 exclusively.

=POSITIONS OF THE 12=

=--y--12 as a Soul Path Number--=Shows that you chose the pathway of expression through dominion, that you can be the leader in art or drama or literature. In any of these you can be the head of a great new movement, causing schools to spring up all over the country. It is a steep grade to climb, but the 12 indicates that you can climb it if you will persist.

=--z--12 as a Personality Number--=Shows that you will make your attainments in life largely by showing your authority in the question that may be before you. This, of course, you can only do after you have attained to real knowledge in that line. But this tendency of the 12 here is to make you inclined to assume authority, to "bluff it through" in some cases. Watch this. It is really easier to KNOW and BE the thing you profess and will not take any more time than the making of excuses as to why you do not know.

=--a--12 as a Predominant Name Number--=Here you will attract those around you who will be authorities in their line. With this 12 as a Predominant Name Number you need never be much encumbered with the companionship of the mediocre or lowly. You can ride with the best and be acquainted with the big public characters, for you will naturally attract that kind. Be prepared for this by having studied deeply along the lines of the authorities you are to meet. When you know in advance what great person you are going to meet, if his line is in line with your own great ambition, then read up heavily IN ADVANCE, then LISTEN to him. YOU can learn faster from him by having studied to listen TO him.

=--b--12 as a Destiny Number--=This shows that you will be a great success as the national head of some movement, more particularly an art movement, or, in some cases a political movement. Again much study is required, not only to attain the coveted post, but to keep ahead of those who would deprive you of it. This number often seems to be accompanied by jealousy and envy on the part of others. These cannot be effective if you keep your eye ONLY on the distant goal of success. Jealousy and envy can only defeat you if YOU stop to regard them, or to resent them.

=--c--12 as a Public Appearance Number--=This shows you can best reach the public for your great work through some use of the voice, possibly public speaking. While this 12 gives you dominion over many, it also makes you very likely to scatter your forces, by reason of the 12 having a value of 3, when reduced to its digit. 3 is the diffusive effect, the scattering of forces and energies, possibly through stopping to argue with jealous or envious opposition.

=--d--Warning--=Have one big objective and stay with it. Do not be inclined to show off too much. Keep your energies for your big job, your main appeal to your public. Do not allow personalities or flattery to get inside of your mind. Keep yourself clean and fine. Believe in yourself and your work, be enthusiastic but not boastful. Put all your energies into the thing you are doing at all times and you will come out ahead. But plan well and thoroughly and for years ahead what you want to be doing.

=Application of the Seven Principles to the Spirit Plane=

=--e--=THE SPIRIT PLANE is peculiar, in that very few of the Seven Principles have any application to it. Even where we can detect some little application, it is but dim to us. It is for the most part "beyond the veil." The SPIRIT PLANE is that "mystery which the angels have desired to look into." (1 Pet. 1: 12.)

=--f--=FORCE, the First Principle, cannot be applied in any way to the SPIRIT PLANE, for FORCE is the First Emanation of SPIRIT. Since GOD is SPIRIT (John 4:24) it follows that He is the Forceless center of all FORCE. FORCE being His First Expression, His Word creates. HE does not NEED FORCE, even as an attribute. Nor does He need any other attribute that we could name for Him.

=--g--=Likewise we cannot give GOD or SPIRIT the attribute of POWER, for that is derived from FORCE.

[Sidenote: PISCES [Symbol: Pisces] SUB-LUMA]

=--h--=CHOICE, the Second Principle, cannot be applied to the SPIRIT PLANE, for SPIRIT or GOD cannot be reduced to a CHOICE. Neither could GOD be given RICHES, as being produced by the right use of CHOICE.

=--j--=ORDER, the Third Principle, cannot be applied to the SPIRIT PLANE, for "that which GOD (SPIRIT) doeth is perfect, nothing can be put to it and nothing can be taken from it." (Eccles. 3:14.) Nothing could be arranged or put in any more perfect ORDER than is already IN SPIRIT.

=--k--=COHESION, the Fourth Principle, cannot be applied to SPIRIT, for no STRENGTH can be added to SPIRIT.

=--l--=DISCARD, the Fifth Principle, cannot be added to the SPIRIT PLANE, because there is nothing in SPIRIT to DISCARD and therefore no HONOR to which SPIRIT may attain. How good it would be if men could learn that, and not be pleading with SPIRIT to send DOWN the POWER, when the HONOR and POWER would come OUT upon them (Acts 2:3, 4) if they could but be "still and know that the I AM is GOD." (Psalm 46:10.)

=--m--=TRANSMUTATION, the Sixth Principle, cannot be applied to the SPIRIT PLANE, for there is nothing to TRANSMUTE on that Plane. All is perfect.

=--n--=SPIRITUALITY, the Seventh Principle, cannot be applied to the SPIRIT PLANE for the SPIRIT PLANE IS SPIRITUALITY and is therefore the top, the apex, of BLESSING.

=PISCES= [Symbol: Pisces] =SUB-LUMA=

=Sign No. 12=

[Illustration: Symbol: Pisces]

=--nn--=The Pisces [Symbol: Pisces] Sub-Luma influences those born from February 20th to March 20th inclusive, in any year. The best forms of expression will be along the lines of Art; various kinds of Drawing; Sculpture; Mechanical repairing and operation; Traveling Agents; Detectives; Submarine work; Authors; Actors; Mystics and Ministry; make splendid Government employees.

=Marriage=

=--p--=The most satisfactory mating would be with a Sub-Luma in the Cancer [Symbol: Cancer], Scorpio [Symbol: Scorpio], Taurus [Symbol: Taurus], Capricorn [Symbol: Capricorn] or Virgo [Symbol: Virgo] Sub-Lumas.

=ASTRAL CLASSIFICATION=

=Principal Planets Jupiter= [Symbol: Jupiter] =and Neptune= [Symbol: Neptune]

=--q--=Jupiter [Symbol: Jupiter] tends to give a hopeful, buoyant and cheerful disposition which should go far towards making you popular and gaining you many friends. You can gain social esteem and success and will be popular and generally liked. You are benevolent, generous and humane, and are always ready to help those

who deserve it and to assist worthy causes. You have a regard for law, order, and propriety and for the rules and conventions of customs; you dislike incivility, awkwardness, or bad taste in opinions or conduct as much as you do ugliness or inharmony in your surroundings. You have a reverence for beauty both in outward form and in ideas; you like beautiful surroundings and comfort and elegance in all things. You have energy, enthusiasm, ardour and faithfulness. You have a natural respect for law and religion, and you take kindly to ritual, ceremonial, and etiquette, and are a little too likely to be bound by formalities. You have power to cultivate the higher faculties of the mind in the direction of law, religion, or philosophy, if you care to do so.

=--r--=Jupiter [Symbol: Jupiter] is a very favorable planet when well placed. It governs social and general prosperity, religion, law, benevolence and good will; and gives some appreciation of beauty, harmony, imagination, and ideality.

=--s--=The planet Neptune [Symbol: Neptune] furnishes an influence toward the spiritual, the esthetic, the ethereal. It makes you love the poetical and beautiful. It gives you somewhat more of a freedom in your choice of the spiritual, however, than might be implied by the presence of Jupiter [Symbol: Jupiter], for Jupiter [Symbol: Jupiter] is a shade dogmatic on such things.

=--t--=But if Neptune [Symbol: Neptune] brings spirituality, it also brings in a vagueness, an uncertainty of expression, resulting quite often in silence where you should have spoken; in enduring where you should have protested, because you would not want a dispute. This should be watched not only for your own sake, but for those who would impose upon you; for it is not right to give people the impression that they can go on imposing on others as they did upon you. It is a wrong to the very ones who impose.

[Sidenote: PISCES [Symbol: Pisces] SUB-LUMA]

=--v--=The emblem of this sign is the "Fishes." It is a Watery sign. The Sun [Symbol: Sun] is your guiding Planet, but was on the edge of this sign, at your birth, hence, you will not receive the full results of the Sun's [Symbol: Sun] influence. You are fond of the beautiful things in nature and art. Persons born on this date, under the conjunction and conditions of the Planets, have a limpid purity of style, and among them are to be found excellent art critics, artists and writers, and when busily engaged, always have an eye towards the shimmering blue water, which is their native element. You are careful in all your duties and their fulfillment. If you start anything, you want to "see it through." In this case, you are almost obstinate, and often, when the case is lost, and seen to be so by everyone else, you continue and hold on like a bulldog, refusing to let go.

=--w--=You have a rather happy nature--making light of trials and troubles, which come to you, and in this way earning the admiration of many who come into contact with you. You are very much drawn to the opposite sex and will probably have a large number of love affairs, but none of them will prove serious, and you may never marry. Your characteristics are faithful devotion to duty, careful attention to business, and loyal regard for the interests of your employer. You do not skimp or shirk performances of duty or contract, but rather go further and give more than expected or asked. In social affairs, you are good-naturedly careless. Unless there is some strong attraction of love or friendship, you are careless of keeping your appointments.

=--x--=Being born under this sign, you should strive to develop your natural trust in an infinite power. This will prevent you from crossing the bridge before it is built, and from the many imaginary things that worry you. You are far above the average person with your gift of intuition and it seldom fails you; you have a weak side to your nature, which it is hard to delineate; perhaps you yourself do not know. You are quite affectionate, and demand a good deal of this devotion in return from the object of your adoration. You probably have symbolic dreams, which you should take some pains to have interpreted by an expert. Pay particular attention to any warnings given you in this way. You might make a brilliant success, if you ever decide to go before the footlights. Your natural ability as a mimic and being a good entertainer would have a tendency to push you ahead to the front ranks. You like lots of attention, but are by no means a flirt, at least you won't acknowledge the fact. You can love very deeply. Take care in your choice of a life partner, for one of your nature can get in easily, but it is like pulling teeth to get out. "Be careful."

=Relativity of Pisces= [Symbol: Pisces] =and Number 12=

=--y--=As the number 12 signifies Dominion, so here in the Pisces [Symbol: Pisces] nature we find dominion of events. Either the Pisces [Symbol: Pisces] nature is dominated by events and has the usual sad and depressing experiences, exile from home, lack of understanding by his friends and all; or else the Pisces [Symbol: Pisces] nature triumphs over the 12 and becomes a Washington. (Born Febr. 22nd.) Which shall it be? Determination and persistence supply the answer.

=Twelfth House or Cycle Pisces= [Symbol: Pisces] =Influence=

Age Next Birthday--2-14-26-38-50-62-74-86

[Illustration: Symbol: Pisces]

=--z--=Twelfth House: Pisces [Symbol: Pisces] influence; Spirit focusing through Jupiter [Symbol: Jupiter], planet of business and generosity; and through Neptune [Symbol: Neptune], the planet of Spiritual awakening, occult perception. Neptune [Symbol: Neptune] is usually most influential during this House. During these years be careful of law, legal entanglements, treachery from trusted friends and long journeys without purpose. Do not take any long journeys, get married, or make any new agreements for business. Poverty, exile and uncalled for hatred can be a strong influence in these years, unless you have already established yourself in a good way among many thru your extra kindnesses. Affects the following years: 2nd, 14th, 26th,

38th, 50th, 62nd, 74th, 86th, 98th.

=--a--=The Twelfth House being the house of tribulations, persecution, malice, secret enemies and treason, the passage through this house is, therefore, uncertain in its operation, and tends to produce experiences of a sorrowful nature, which will make it possible that you may suffer from treachery from the hidden enmity of supposed friends. Experiences will be had that are far from pleasant. You will come in contact with persons whose influence will not be beneficial.

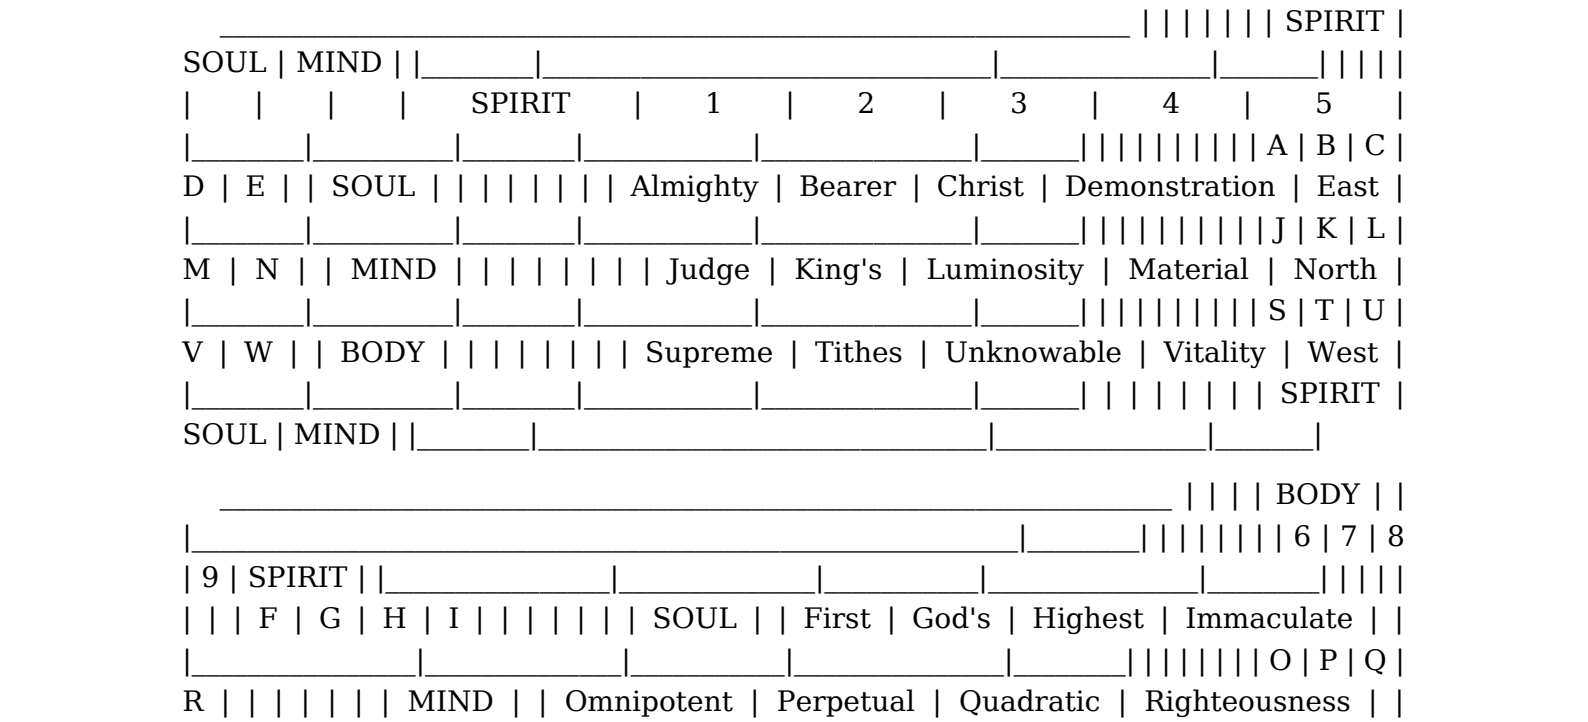

[Sidenote: TWELFTH HOUSE]

=--b--=Domestic troubles will awaken the feelings and so cause you to worry and have troubles which are difficult to overcome, and it is more over now to be experienced and many strange events effecting the emotional side of nature will take place. It is not a good period on the whole, but some advantages will be gained in connection with psychic affairs. There will be danger of becoming somewhat jealous and resentful and one should, therefore, endeavor to keep the lower nature well under control.

=--c--=As the year will prove a trying time all around, one should do all he can to avoid giving way to any evil tendencies. The starry-courses now in operation will cause you to be easily influenced by others, and hence as easily effected by degraded and impure conditions and surroundings as by the highest and most spiritual psychic influences. A slack time in business is also denoted. This will cause you to be easily inclined to fret and worry; but this is wrong, as it will react upon the health.

=--d--=But in general it should be remembered that the influences are such that nothing can come to one that is not his own, and therefore, if you made no enemies in the past then there is nothing to fear during this year.

=NUMEROLOGICAL TABLE OF THE ENUMERATION NO. 2= =(Showing the values and inner meanings of the English Alphabet)=

[Illustration: Chart of the Alphabet]

[Sidenote: THE NUMBER 22]

=--e--=22 indicates a master on the higher planes also, as does 11. The main difference being in degree, the 22 being the greater. The words Lord, Master and Mind, each have a value of 22.

=--f--=Like the 11 and the 12, we leave the number whole without reducing it, only when we are delineating a deep spiritual subject. In all ordinary cases and for worldly uses we reduce the number of the 22 to 4 by adding the 2 and the 2 of the 22.

=POSITIONS OF THE 22=

=--g--22 as a Soul Path Number--=This indicates a pathway of mastery in the highest degree, or the common desire to be wealthy and own property in a large way. When one's mind goes to property, rather than the spiritual; when you plainly feel, in your innermost heart, that wealth is more valuable than spiritual things, there is no reason for leaving the 22 as a sign of mastery. The 22 should be at once reduced to 4. Like the number 22 itself, its presence in your life is only assured by the USE you make of it. That high use is mastery of self and all your conditions.

=--h--22 as a Personality Number--=This shows that you can make your highest success only when your aim is on the high lines, that is, on spiritual subjects. This position of the 22 gives you the ability to make others want to put you in high places in anything spiritual. If you deserve the 22 you will soon prove it by the way you are asked to DO things, whether big or little. If you are a master deserving of the 22 you will be asked IF things can be done by the powers you will have brought to the questioner's attention. If you are NOT a master, deserving of the 22 you bear, you will be asked to DO things; you will be reproved for dreaminess and mooning about. Masters are always respected.

=--j--22 as a Predominant Name Number--=Will show an attraction for real masters in you. You will naturally attract the masters among the teachers without currying their favor. Oftentimes there will come into your life those who will speak of strange and peculiar things. Sometimes these will be things you partly understand, sometimes they will be things beyond you, but if you deserve the 22 in this position you will know the value of what you hear even when not quite able to decipher its depth.

=--k--22 as a Destiny Number--=Shows that your great objective in coming to this earth plane was to lead others to mastership. This may mean a lifetime of preparation for a few short years of work as in the case of the Lord (22) and Master (22) and Jesus

(2). The world might even misjudge your work and its meaning, but the masters that you raise from the depths will know and the masters you serve on another plane while still here will also know.

=--kk--22 as a Public Appearance Number.= When the values of the initials added together make 22, it indicates an ability to come before the public in a masterly vibration, as an organizer. The admiration and applause of the crowd may take the form of many gifts and the money almost too easily obtained. This may cause you to degenerate your 22 into its sum, as 4, the material, organizing and even mercenary type of mind. The possession of a 22, as the sum of your initials or your Public Appearance Number, will not prevent this. Numbers only indicate the latent powers possessed, the influences that can be used.

=--l--Warning--=The mere possession of a 22 in your name or birthdate proves little, as we said of the 11. The way that you will know whether you are a master (22) of a physical body, or whether RULED BY your physical body (4) is the way that you will react upon other physical bodies. You will know yourself by the company you attract; by the way people respect you or speak to you; by the difference between being asked YOUR opinion and preference, or being asked to believe theirs. What reaction your presence causes will tell. You will know you are attaining the mastery, when you hear this said of you, "Whatsoever He saith unto you, DO it." (John 2:5 and 14:12.) It is a notable fact that 11, 12, 22, when added together make 45, which is 9, a higher demonstration of the law.
